52.212-2

Evaluation-Commercial Products and Commercial Services. (Deviation 2026-O0038) (Feb 2026)

The Government will award a contract resulting from this solicitation to the responsible offeror whose proposal conforming to the solicitation will be most advantageous to the Government, price and other factors considered. Contract award will be made to the contractor found technically acceptable with a Green or better Supplier Performance Risk System (SPRS) rating with the lowest price. Technical rating will not be an evaluation factor but rather it will first be determined whether or not the contractor meets technical acceptability and then the proposal will be evaluated based on the evaluation factors; past performance and price. The government will conduct a tradeoff analysis of the past performance and price factors of technically acceptable proposals.

The following factors shall be used to evaluate offers:

1)Technical Acceptability

2) Past Performance

3) Price

Technical Acceptability -

Factor 1: Technical Capability

To be determined technically acceptable, the Offeror must submit a quote that clearly demonstrates the ability to meet the Government's requirements across the following sub-factors:

Sub-factor 1: Delivery Schedule. The Government will evaluate the Offeror's proposed delivery schedule to determine if it is acceptable and meets or exceeds the required timeline outlined in the solicitation's delivery requirements.

Sub-factor 2: Technical Approach. The Government will evaluate the quote to determine if it provides a clear, adequate description of the Offeror's methodology and demonstrates exactly how the contractor will successfully fulfill all contract requirements and scope of work.

Sub-factor 3: Material Specifications. The Government will evaluate the materials proposed by the contractor to ensure they strictly meet or exceed all end-user standards and technical specifications identified in the requirement.

The Government will evaluate quotes on a pass/fail basis. A quote must be rated 'Acceptable' in all technical sub-factors to be eligible for award. Quotes rated 'Unacceptable' in any sub-factor will be deemed technically unacceptable overall.

Past Performance-

Evaluation of a vendor's past performance will be accomplished in an efficient and minimally burdensome fashion. Past performance history in SPRS will be assessed based on the color legend below. The percentage is based on past projects that have been evaluated and reported. A color rating is assigned based on the performance. Blue being the best and red being the worst. If a vendor does not have past performance history in SPRS, a Green rating will be assigned.

Blue: Top 5%

Purple: Next 10%

Green: Next 70%

Yellow: Next 10%

Red: Lowest 5%

Price -

Contract award will be made to the contractor found technically acceptable, with a Green or better SPRS rating, with the lowest Total Evaluated Price (TEP). An offeror's Total Evaluated Price (TEP) will be determined by the sum of all separately priced CLINS as presented in Supplies/services section. If a separate CLIN and a TEP (as applicable) are not included, or are not clearly stated, miscalculated and/or understandable, the offer will be rejected as non-responsive.

Evaluation Process:

Step 1: Proposals received and sent for technical evaluation.

Step 2: Technically Acceptable proposals are separated and evaluated for past performance within SPRS.

Step 3: Remove technically acceptable offers below the Green rating.

Step 4: Award to lowest TEP.

*In the event that the SPRS system is down during the evaluation period of this solicitation, proposals will be evaluated in the same manner using CPARS rather than SPRS. CPARS has assigned ratings scored as below and the same color system has been assigned for evaluation.

(Blue) - One (1): Exceptional

(Purple) - Two (2): Very Good

(Green) - Three (3): Satisfactory

(Yellow) - Four (4): Marginal

(Red) - Five (5): Unsatisfactory

* Note: The system of evaluation will only change if SPRS is unavailable during evaluation. *

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Options (if applicable)Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result Notice of award in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
