Section C - Description/Specifications/Statement of Work

Performance Work Statement

Historical Support Services

1.0 Introduction

The Office of History, Headquarters, U.S. Army Corps of Engineers (CEHO), located in Alexandria, Virginia, is responsible for collecting, preserving, interpreting, and disseminating the history of the US Army Corps of Engineers (USACE), as outlined in AR 870-5 (Military History), AR 870-20 (Army Museums), and ER 870-1-1 (Field Operating Activities - Historical Programs). To accomplish its mission, CEHO's historical and curatorial staff conduct the following activities: researching, writing, and reviewing a wide variety of historical products; collecting, arranging, cataloging, digitizing, and preserving historical documents, photographs, and artifacts; and managing a wide-ranging oral history program. To advance its mission and effectively serve the demand for historical services from the USACE enterprise, CEHO requires a historical services contractor to support CEHO; all USACE organizations and activities; and the history and the museum staffs at the U.S. Army Engineer School at Ft. Leonard Wood, Missouri.

1.1 Scope

The Contractor shall furnish all personnel, management, supervision and materials necessary to provide historical support services. A list of proposed labor categories is provided in the attached Appendix. Anticipated tasks associated with this request include but are not limited to the following:

- Conduct primary and secondary research at archives, libraries, and other repositories that the Government may designate;
- Write or review an essay, study, or monograph on a specified topic or subject related to the history of the Corps of Engineers;
- Provide graphic design, layout, and publication support services for historical products such as reports, brochures, books, posters, and displays
- Provide editorial and indexing services;

- Provide archival support services for both analog and digital content, including reviewing, arranging, conserving, and describing historic research materials, including documents, photographs, audio recordings, and electronic data;
- Provide library cataloging and metadata services
- Conserve and digitize a wide variety of historic materials including photographs, slides, maps, documents, audio recordings, motion picture film, and various forms of digital audio;
- Furnish museum support services, including collection management, preservation, and conservation, and producing historical displays;
- Provide curatorial support services including object inventories; basic preservation and conservation; label, rehouse, and photograph historic artifacts; and update catalog records in the Office of History's collection of historic artifacts;
- Conceptualize, design, research and write exhibit text, fabricate, and install historic and museum displays.
- Provide library services, including collection development, weeding, cataloging, metadata, and arranging;
- Conduct, transcribe, and accession oral history interviews into CEHO's oral history collection; and
- Conduct archaeological research and prepare in-depth reports relating to anthropological and archaeological resources.

2.0 General Requirements

This section describes the general requirements for this effort. The following sub-sections provide details of various considerations on this effort.

2.1 Non-Personal Services

The Government shall neither supervise Contractor employees nor control the method by which the Contractor performs the required tasks. Under no circumstances shall the Government assign tasks to, or prepare work schedules for, individual Contractor employees. It shall be the responsibility of the Contractor to manage its employees and to guard against any actions that are of the nature of personal services or give the perception of personal services. If the Contractor believes that any actions constitute, or are perceived to constitute, personal services, it shall be the Contractor's responsibility to notify the Procuring Contracting Officer (PCO) immediately.

The Contractor shall advise and support the Government but shall not make final decisions or certifications on behalf of the Government nor perform any inherently governmental functions. The

Contractor and its employees shall not represent the Government nor appear to represent the Government in performance of these contract services. Contractor personnel shall clearly identify themselves as Contractor employees in all interactions during contract performance.

2.2 Business Relations

The Contractor shall successfully integrate and coordinate all activity needed to execute the requirement. The Contractor shall manage the timeliness, completeness, and quality of problem identification. The Contractor shall provide corrective action plans, proposal submittals, timely identification of issues, and effective management of subcontractors. The Contractor shall seek to ensure customer satisfaction with and professional and ethical behavior by all Contractor personnel.

2.3 Contract Administration and Management

The following subsections specify requirements for management and administration of contracts and personnel.

2.3.1 Contract Management

The Contractor shall establish clear organizational lines of authority and responsibility to ensure effective management of the resources assigned to the requirement.

2.3.2 Contract Administration

The Contractor shall establish processes and assign appropriate resources to effectively administer the requirement. The Contractor shall respond to Government requests for contractual actions in a timely fashion. The Contractor shall have a single point of contact between the Government and Contractor personnel assigned to support contracts or BPA Calls.

2.3.3 Personnel Administration

The Contractor shall provide the following management and support as required. The Contractor shall provide for employees during designated Government non-workdays or other periods where Government offices are closed due to weather or security conditions. The Contractor shall maintain the

currency of their employees by providing initial and refresher training as required to meet the PWS requirements. The Contractor shall make necessary travel arrangements for employees. The Contractor shall provide necessary infrastructure to support contract tasks. The Contractor shall provide administrative support to employees in a timely fashion (time keeping, leave processing, pay, emergency needs).

2.4 Subcontract Management

The Contractor shall be responsible for any subcontract management necessary to integrate work performed on this requirement and shall be responsible and accountable for subcontractor performance on this requirement. The prime Contractor will manage work distribution to ensure there are no Organizational Conflict of Interest (OCI) considerations. Cross teaming may or may not be permitted.

2.5 Contractor Personnel, Disciplines, and Specialties

The Contractor shall accomplish the assigned work by employing and utilizing qualified personnel with appropriate combinations of education, training, and experience. The Contractor shall match personnel skills to the work or task with a minimum of under/over employment of resources. The Contractor shall ensure the labor categories as defined in the Labor Categories document (see Appendix A), labor rates, and man-hours utilized in the performance of each BPA Call issued hereunder will be the minimum necessary to accomplish the task.

2.6 Location of Work

The Government anticipates that much of the work required will be in the Washington metropolitan area. Unless otherwise specified, services provided in the District of Columbia, as well as in the neighboring jurisdictions in Maryland and Virginia, including the Office of History's office in Alexandria, Virginia, will be considered local and the Contractor will not be reimbursed for travel expenses in those areas. The cost of travel outside of the Washington metropolitan area will be set forth in each BPA Call and reimbursed in accordance with the Joint Travel Regulations. Unless otherwise noted, the Contractor will provide all of the equipment necessary to perform the work under this contract. The cost of material and ancillary support costs (copying, shipping documents, etc.) shall be established in each BPA Call. Close contact between the Contractor and the COR during each assignment is required to ensure prompt and acceptable accomplishment of work.

2.7 Travel / Temporary Duty (TDY)

Travel to government facilities or other locations may be required and will be specified in the individual BPA Call PWS. All travel requirements (including plans, agenda, itinerary, or dates) shall be pre-approved by the Government (subject to local policy procedures), and travel is on a strictly cost-reimbursable basis. Costs for travel shall be billed in accordance with the regulatory implementation of Public Law 99-234 and FAR 31.205-46 Travel Costs.

3.0 Performance Requirements

The following section specifies the Performance Objectives and Performance Elements for the contract.

3.1 Period of Performance

The period of performance of this Blanket Purchase Agreement will not exceed 60 months in duration. BPA Calls will not exceed 12 months past the expiration of this BPA Master Agreement.

3.2 Historical Support Services

3.2.1 The Contractor shall host a BPA Call kickoff meeting for each BPA Call issued under this contract.

The BPA Call kickoff meeting will be a conference call between USACE and Contractor to discuss schedule and to review document availability and roles. Meeting will be held within five (5) business days after BPA Call award as designated by the Government.

3.2.2 The Contractor shall develop and provide a draft and final work plan for the BPA Call.

The Contractor shall prepare draft and final work plans that describe the processes for executing each BPA Call. The Contractor shall manage each BPA Call in accordance with the work plan to assure that all services are performed, reviewed, and provided in a manner that meets professional quality standards. Also included in each BPA Call will be one conference call to discuss USACE comments on the draft work plan.

The draft work plan will be required to be provided to USACE within five (5) business days after kickoff meeting. USACE will have five days to review the plan. The Contractor will submit a final work plan within five days of receiving USACE's comments.

3.2.3 The Contractor will conduct primary and secondary research at archives, libraries, and other repositories that the Government may designate.

Based on that research, the Contractor may survey an assigned body of records and produce an inventory of those records to include: notes on the size of the collection; description of the types of records in the collection and their condition; and an assessment of the historic value of the collection. Where applicable the Contractor may be instructed to obtain paper or digital copies of those records or the applicable finding aids to be accessioned into the CEHO Research Collection. The Contractor may conduct research in assigned repositories to obtain visual materials (e.g., photographs, maps, plans and drawings, film, videotape, slides) and provide paper, film, or high resolution digital copies along with the applicable captions, credits, and a descriptive metadata entry for each file. The digitization standards for all materials produced under the resulting contract will be specified in the individual BPA Calls.

3.2.4 The Contractor will research and write an essay, study, or monograph on a specified topic or subject related to the history of the Corps of Engineers.

The narrative shall be comprehensive, well-researched, analytical, and balanced. It shall be written in a clear, crisp style attractive to the general public, shall reflect the careful research and thought necessary to find acceptance in the scholarly community, and shall include the appropriate footnotes, glossary, index, and bibliography. Where appropriate, in addition to the text, products will include film, paper, or high-resolution digital copies of proposed photographs, maps, and illustrations, complete with captions and credits and a metadata entry for each digital file. For digital images, the minimum resolution/size will be 600 ppi at four by six inches. The digitization standards for all materials produced under the resulting contract will be specified in the individual BPA Calls. When necessary, the Contractor will also provide the necessary photo releases for use of those images by the Government.

3.2.5 The Contractor will provide graphic design, layout, and publication support services for historical products such as reports, brochures, books, and posters.

In accordance with industry standards, the Contractor will perform desktop publishing and layout to produce innovative, attractive, and inviting designs for the various products. Larger projects, such as book-length manuscripts, are anticipated to contain prefatory material (foreword, preface, etc.), manuscript text, end notes, bibliography, and appendices. Some products will require the Contractor to design and produce maps, charts, or diagrams based on original sources in a standard, publication-wide format. For each product, the Contractor will produce a final electronic package that conforms to all current industry-standard specifications for printing and publication (including web publishing). The Contractor may also be required to format new or existing layouts for e-books. The Contractor may also be tasked with publishing historical products.

3.2.6 The Contractor will provide an array of editing services to improve written products that range from image captions and credits to book-length manuscripts.

Services requested may include substantive editing of written works of history with the goal of maintaining an author's voice while at the same time identifying inconsistencies, logical faults, information gaps, or other errors in the substance of the work; clarifying language or organization of the narrative; and conforming the work to accepted style guidelines. For other projects, the Contractor may be tasked only with proofreading and copyediting--applying consistent style and usage; correcting spelling, grammatical, typographical, and other obvious errors; and basically ensuring a clean manuscript. Services may be tasked at a level falling anywhere along this range of editing services and may apply to any type of historical product produced by the Office of History or other USACE elements.

3.2.7 The Contractor will provide archival support services for both analog and digital collections, including reviewing, arranging, conserving, and describing historic materials such as documents, photographs, motion picture film, audio recordings, and electronic data for accession into USACE historical holdings such as the Office of History's Research Collection.

Materials to be inventoried and accessioned may include paper, photographs, or electronic records. Where applicable, the Contractor will prepare finding aids in accordance with professional standards and of sufficient detail and clarity to describe the collection and promote historical research. New material may be added to CEHO's historical holdings as separate collections or may be integrated into its existing file architecture. In the case of electronic records, the documents will be arranged and stored on CEHO's shared drive and backed up on another storage medium. Paper records and photographs will be arranged and stored in archival containers.

The Contractor will be responsible for arranging and describing born-digital archival materials in accordance with professional standards and practices to ensure the long-term preservation of collections. Contractors will screen out restricted, personal, classified and proprietary information such as social security numbers, credit card numbers, classified data, medical records, etc. in digital archival files and will create and/or maintain metadata.

3.2.8 The Contractor will digitize a variety of material including photographs, negatives, slides, documents, monographs, maps, motion picture film, microfilm, and audio recordings.

The Contractor will also transfer existing digital material to new digital formats. All digitization formats, as well as the required resolution, will be established in the individual BPA Calls. The Contractor will also provide the Government with the necessary metadata to enable the material to be accessioned into the Office of History's Research Collection.

3.2.9 The Contractor will provide curatorial support services including: conduct object inventories; perform preservation and conservation; label, rehouse, and photograph historic artifacts; and update catalog records in the Office of History's collection of historic artifacts.

The Contractor will also create and update artifact records and perform research where necessary. In addition, the Contractor may be called upon to move artifacts to new storage locations and to construct a proper storage environment for museum artifacts.

3.2.10 The Contractor will develop historical displays (both physical and online virtual exhibits) using artifacts, images, and text from CEHO's Historical and Research collections and augmented with material from other collections as required.

The Contractor will conduct the necessary historical and archival research, select appropriate artifacts and photographs, and prepare the necessary explanatory text, captions, credits, and visual material. After review and approval by the Government, the Contractor will design, produce, and install the exhibit. Installation may include the fabrication of display cases, mounts, signage, and lighting.

3.2.11 The Contractor will prepare for and conduct oral history interviews on the entire career or some specific portion of the career (such as an assignment) of an active duty or retired engineer officer or civilian employee or someone significant to the history of the Corps of Engineers.

Interviews will be conducted following procedures outlined in CEHO's oral history guides. In-person interviews will be conducted using high-quality digital recorders with external XLR microphones and will be recorded in uncompressed WAV format. Some interviews may be done remotely, using recorded sessions from online conferencing software, as long as a broadband connection is possible. Contractor will prepare a list of keywords to facilitate the preparation of the transcript. The interviews will be transcribed in accordance with the format prescribed by CEHO. Interviews conducted by CEHO staff members and others may also be transcribed. For interviewees who are not current federal employees, the Contractor will secure a completed access agreement from the interviewee.

3.2.12 The Contractor will develop web pages or websites related to Army engineer history using industry standard software tools that are compatible with existing web sites maintained by the Office of History or other government entities.

The web-based content, including text, illustrations, graphics, and audio-video material, may be prepared using government-or contractor-supplied information. The pages and sites will be well organized, visually appealing, and easy to use. The formats and specifications for web pages or sites produced under the resultant contract will be specified in the individual BPA calls.

3.2.13 The Contractor will provide library services for book and print collections

The Contractor will review CEHO/USACE monograph and print collections to assess relevance to the collections, catalogue and accession as required and affix metadata to digital work processes. The Contractor may also be required to make suggestions for collection development.

3.2.14 The Contractor will provide archaeological and cultural resources support services to include preparing applicable reports.

The Contractor will conduct archaeological or cultural resources research and prepare in-depth reports relating to anthropological/archaeological resources.

3.3 Program/Project Management.

3.3.1 The Contractor shall participate in meetings for program management as deemed necessary by either party.

At the discretion of the Government, the meetings may be held virtually, at Headquarters USACE in Washington, D.C., or at the Humphreys Engineer Center in Alexandria, Virginia, or at another facility that the Government may designate.

3.3.2 The Contractor shall provide program management for work assigned.

Program management will include a single POC with contracting authority. The Contractor must have the ability to handle multiple BPA Calls and subcontractors simultaneously as well as the ability to hire and retain personnel associated with work assigned.

4 Special Requirements

This section describes the special requirements for this effort. The following sub-sections provide details of various considerations on this effort.

4.1 Security

4.1.1. General security requirements and guidance: The security requirements described below apply to all contract personnel (including employees of the prime Contractor ("Contractor") and all subcontractor employees) supporting the performance requirements of this contract. The Contractor is responsible for compliance with these security requirements. Questions regarding security matters shall be addressed to the designated Government representative, e.g., Contracting Officer Representative (COR), Requiring Activity (RA) representative, or Contracting Officer (if a COR or other RA representative is not appointed). Contract personnel are critical to the overall security and safety of US Army Corps of Engineers (USACE) installations, facilities and activities, and security awareness training contributes to those efforts. The Department of Defense (DoD) and Army security training requirements specified below, if applicable, are performance requirements; all applicable contract personnel shall complete initial training within 30 days of contract award or the date new contract personnel begin performance on the contract. Within five business days from the completion of training, the Contractor shall provide written documentation (e.g., email or memorandum) to the Government representative. The documentation shall include the names of contract personnel trained and which training they completed; the Contractor shall maintain training records as part of their contract files and be prepared to provide copies of training certificates to the Government representative. Contractor personnel and vehicles are subject to search when entering federal installations. Additionally, all contract personnel shall comply with Force Protection Condition (FPCON) measures, Random Antiterrorism Measures (commonly referred to as "RAMs"), and Health Protection Condition (HPCON) measures. The Contractor is responsible for meeting performance requirements during elevated FPCON and/or HPCON levels in accordance with applicable RA plans and procedures --this includes identifying mission essential and non-mission essential personnel. In addition to the changes otherwise authorized by the changes clause of this contract, should the FPCON or HPCON levels at any individual facility or installation change, the Government may implement security changes that affect contract personnel. The Contractor shall ensure all contract personnel are aware of their security responsibilities, including any site-specific requirements identified in local policies or procedures.

4.1.2. Antiterrorism (AT) Level I training: All contract personnel requiring routine access to Army installations, facilities, and controlled access areas, or requiring network access shall complete initial and annual refresher AT Level I awareness training. Online AT Level I awareness training is available at https://jko.jten.mil/ (website subject to change).

4.1.3. Physical security and access control requirements: All contract personnel requiring physical access to a federal installation or facility shall comply with the access control procedures of that location. Contract personnel requiring unescorted access to meet contract performance requirements on a DoD installation in the US shall be vetted by the installation/facility Provost Marshal/Directorate of Emergency Services/Security Office using the National Crime Information Center-Interstate Identification Index (commonly referred to as "NCIC-III") and Terrorist Screening Database (commonly referred to as "TSDB"). Contract personnel shall comply with all personal identity verification requirements specified in installation/facility policies and procedures. Contract personnel who do not meet requirements for unescorted access to USACE facilities shall coordinate escorted access with the Government representative, as needed. Contract personnel who receive keys, access cards, or lock combinations that provide access to government-owned property shall comply with key and lock control procedures of the RA.

4.1.4. Contract personnel requiring a common access card (CAC): Contract personnel will be issued a common access card (CAC) only if duties involve one of the following: (1) both physical access to a DoD facility and access to DoD information systems or networks; (2) remote access to a DoD information system or network using DoD-approved remote access procedures; or (3) physical access to multiple DoD facilities or multiple non-DoD federally controlled facilities on behalf of the DoD on a recurring basis for a period of 6 months or more. Before CAC issuance, contract personnel must have at a minimum, a favorably adjudicated Tier 1 investigation or an equivalent or higher investigation in accordance with applicable Army regulations and Homeland Security Presidential Directive-12 (HSPD-12). At the discretion of the RA, an initial CAC may be issued based on a favorable review of a fingerprint check and a successfully scheduled Tier 1 investigation with the National Background Investigations Bureau. The RA provides contract personnel with additional information and forms to initiate the CAC issuance process, and/or to initiate background investigations, when required. Contract personnel shall complete these processes within established timelines to avoid delays.

4.1.5. Suspicious Activity Reporting training (e.g. iWATCH, CorpsWatch, or See Something, Say Something): All contract personnel shall receive initial and annual refresher training from the RA representative on the local suspicious activity reporting program. This locally developed training provides contract personnel with general information on suspicious behavior, and guidance on reporting suspicious activity to the project manager, security representative or law enforcement entity.

4.1.6. Contract personnel requiring access to Government information systems: All contract personnel with access to a government information system (including USACE business systems and CAC-enabled websites) shall comply with applicable DoD and Army regulations and shall use the organization's UserID-Password Administration and Security System (U-PASS) at commencement of services to request network user accounts. Contract personnel shall complete DoD Information Assurance Awareness training prior to accessing information systems, and annually thereafter.

4.1.7. Contracts requiring a formal OPSEC program: The Contractor shall develop an OPSEC SOP /Plan within 90 days of contract award. The OPSEC SOP/Plan shall be reviewed and accepted by the RA OPSEC Officer. This plan will include a process to identify critical information, where it is located, who is responsible for it, how to protect it, and why it needs to be protected. In accordance with Army and DoD regulations, the contractor shall have a certified Level II OPSEC coordinator, who shall ensure OPSEC compliance during contract performance.

4.1.8. Training requirements for the protection of sensitive information: All contract personnel with access to critical information (as identified in the RA's OPSEC Program) shall complete initial and annual refresher OPSEC Level I Awareness training, which is available at the following websites: https://www.iad.gov/ioss/, or http://www.cdse.edu/catalog/operations-security.html (websites subject to change). All contract personnel with access to Controlled Unclassified Information (CUI) shall complete initial and annual refresher CUI training in accordance with applicable Army policy.

4.1.9. Contracts requiring handling or access to classified information: The prime Contractor shall have a Facility Clearance (FCL) at the appropriate level prior to performance on the contract; the RA will sponsor the prime contract company in obtaining the FCL. All cleared contract personnel shall comply with the FCL requirements, as well as applicable laws and regulations regarding contractor access to national security information. For classified contracts, the RA will generate the DD Form 254, which will be attached to the contract.

4.1.10. Threat Awareness Reporting Program: All contract personnel who maintain an active security clearance shall receive initial and annual refresher training on the Threat Awareness and Reporting Program (commonly referred to as "TARP"), provided by a Counterintelligence Agent. As determined by the servicing Counterintelligence Agent for the RA, contract personnel may complete web-based TARP training.

4.1.11. Escorting in classified and/or sensitive areas: In accordance with applicable regulations, all contract personnel who do not possess the appropriate security clearance or access privileges will be escorted in areas where they may be exposed to classified information or operations, sensitive information or activities, or restricted areas.

4.1.12. Pre-screen candidates using E-Verify Program: Contractors shall comply with the requirements set forth in FAR clause 52.222-54 Employment Eligibility Verification and FAR Subpart

22.18 in using the E-Verify Program at (https://www.e-verify.gov/) (website subject to change) to meet the contract employment eligibility requirements. Contractors are encouraged to cooperate with Federal and State agencies responsible for enforcing labor requirements to include eligibility for employment under United States immigration laws. An initial list of verified/eligible candidates shall be provided to the COR no later than three business days after the initial contract award. When contracts are with individuals, the individuals will be required to complete a Form I-9, Employment Eligibility Verification, and submit it to the Contracting Officer to become part of the official contract file.

4.2 Quality

This section describes the Quality Control components for this effort. The following sub-sections provide details of various considerations on this effort.

4.2.1 Quality Control

The Contractor shall develop a quality control plan (QCP) and maintain an effective quality control program to ensure services are performed in accordance with the IDIQ contract and this PWS. The Contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The Contractor's QCP is the means by which he assures himself that his work complies with the requirement of the contract.

The finalized QCP will be accepted by the Government 30 days after date of the contract award. The Contracting Officer may notify the Contractor of required modifications to the plan during the period of performance. The Contractor then shall coordinate suggested modifications and obtain acceptance of the plan by the Contracting Officer. Any modifications to the program during the period of performance shall be provided to the Contracting Officer for review no later than 10 working days prior to effective date of the change. The QCP shall be subject to the Government's review and approval. The Government may find the QCP "unacceptable" whenever the Contractor's procedures do not accomplish quality control objectives. The Contractor shall revise the QCP within 10 working days from receipt of notice that the QCP is found "unacceptable."

4.2.2 Quality Assurance Surveillance Plan (QASP)

The Government shall monitor the Contractor's performance under this contract and each BPA Call in accordance with the Government's QASP.

5.0 Deliverables

The Contractor shall provide deliverables as described in subsequent BPA Calls. Deliverables shall be specified by the Government. Format and delivery schedule for deliverables are outlined CDRLs and /or as stated in the applicable section of the applicable BPA Call PWS.

Number	Name	Frequency	Quantity
A1	Draft Work Plan for each BPA Call.	Each BPA Call	1
A2	Final Work Plan for each BPA Call.	Each BPA Call	1
A3	Draft deliverables as specified in the individual BPA Calls.	As required per BPA Call	1
A4	Final deliverables as specified in the individual BPA Calls.	As required per BPA Call	1
A5	Quality Control Plan The Contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services.	Once	1, updated as required

Performance Requirements Summary

Statements		Standards/AQLs	Incentive/Remedy
5.1	Peer Review		
5.1.1	The Contractor shall host BPA Call kickoff meeting for each BPA Call.	Meeting will be held within 5 business days after BPA Call award as designated by the Government.	N/A
5.1.2	The Contractor shall develop and provide a draft and final work plan for each BPA Call.	a) Draft work plan provided within 5 business days after kickoff meeting. b) Final work plan provided within 5 business days after teleconference with USACE.	Re-perform at no cost to the Government.
5.1.3	The Contractor will conduct archival and secondary research at archives, libraries, and other repositories that the Government may designate.	The Contractor will survey records, noting the size, condition, and format of the entire collection and of the applicable records series and subseries within the collection. Copies of finding aids and other material from the collection will be provided at the resolution and format specified in the BPA Call and accompanied by the appropriate metadata.	Re-perform at no cost to the Government.
5.1.4	The Contractor will research and write an essay, study, or monograph on a specified topic or	Based on thorough and well-documented historical research, Contractor will produce clear, interesting, and engaging historical products. Products will be accompanied by high resolution photographs and	Re-perform at no cost to the Government.

	subject related to the history of the Corps of Engineers.	illustrations and include captions, credits, and photo releases.	
5.1.5	The Contractor will design, layout, and provide publication services for historical products.	In accordance with industry standards, the Contractor will design, layout, and produce historical products ranging from book-length manuscripts to posters and brochures. Contractor will provide digital files for printing and PDFs for display on the web.	Re-perform at no cost to the Government.
5.1.6	The Contractor will provide editing services.	Contractor will provide editorial services ranging from substantive editing to resolve inconsistencies or errors, to proofreading and copyediting for stylistic consistency, spelling, and grammar.	Re-perform at no cost to the Government.
5.1.7	The Contractor shall provide archival support services for both analog and digital collections to arrange, conserve, describe, and accession material into the Research Collection.	Contractor will arrange, conserve, describe, and accession paper and electronic records into CEHO's historic holdings. Paper records will be stored in archival containers; electronic records stored on CEHO's network. Finding aids will include sufficient detail to promote historical research; digital archiving may involve data appraisal, review; perform data migration; create and/or maintain metadata standards.	Re-perform at no cost to the Government.
5.1.8	The Contractor will digitize historical material.	The Contractor will digitize a wide variety of historical material, including motion picture film and audio records, in the format and resolution specified in the BPA Call. Contractor will also supply the	Re-perform at no cost to the Government.

		necessary metadata to allow the material to be accessioned into CEHO's Research Collection.	
5.1.9	The Contractor will provide curatorial services for CEHO's collection of historic artifacts.	The Contractor will conduct object inventories, perform preservation and conservation, label, rehouse, and photograph artifacts, and update object catalog records. Curatorial support will be in accordance with American Alliance of Museum standards and AR 870-20.	Re-perform at no cost to the Government.
5.1.10	The Contractor will develop physical and online exhibits.	The Contractor will design and fabricate historical displays that include artifacts, accurate and informative text, captions, and the appropriate visual material. The engaging displays will be designed to appeal to the general public.	Re-perform at no cost to the Government.
5.1.11	The Contractor shall conduct oral history interviews.	The Contractor will prepare for and conduct oral history interviews. Interviews will be conducted in accordance with *Oral History in the U.S. Army Corps of Engineers: A Guide.* All interviews must be recorded on high quality digital recorders, external XLR microphones, and recorded in uncompressed WAV format. For each interview the Contractor will prepare a list of keywords to facilitate transcription.	Re-perform at no cost to the Government.
5.1.12	The Contractor will develop web pages or web sites.	The Contractor will prepare web pages or sites using commercially available software in accordance with Office of History design standards and style guide. The pages and sites will be well organized, visually appealing, and easy to use.	Re-perform at no cost to the Government.

5.1.13	The contractor will provide library services for CEHO's book and print collections	The Contractor will provide cataloging services for print materials; support collections development activities; and provide metadata services for ongoing digitization efforts.	Re-perform at no cost to the Government.
5.1.14	The contractor will provide archaeological support services	The Contractor will conduct archaeological or cultural resource management research and prepare in-depth reports on those resources.	Re-perform at no cost to the Government.

APPENDIX A - LABOR CATEGORIES

The following labor categories are the only approved labor categories to be used on task orders:

Supervisory Archivist

Must:

- Have an American Library Association (ALA)-accredited Master of Library Science (MLS) or Master in Library and Information Science (MLIS) degree with a concentration in archival studies, library sciences, or a related field. A master's degree in a related field may be substituted for an MLS or MLIS degree provided the candidate has five years' experience processing archival materials, digitizing material, and working with large quantities of electronic records.
- Have three years' experience processing archival materials to include: arranging, describing, preserving, and cataloging archival and digital materials and preparing finding aids.
- Have three years' experience working with large quantities of digital records, including image capture, data migration and metadata creation, and converting a wide variety of existing historic material to digital formats and preparing the related metadata.
- Be familiar with, and able to supervise work in, Encoded Archival Description (EAD), including working knowledge of XML-related tools such as Oxygen.

- Have one year's experience overseeing archival operations, supervising archivists, and exercising quality control over projects.
- Provide three finding aids and detailed descriptions of digitization projects for evaluation.

Archivist

Must:

- Have an ALA-accredited MLS or MLIS with a concentration in archival studies, archival management, or records management.
- Have two years' experience processing archival collections to include original arrangement, description, and preservation of collections in accordance with professional best practices.
- Have experience with historical research to conduct biographical and historical context research as applied to archival collections.
- Have two years' experience digitizing a wide variety of historical materials, including applying metadata to ensure interoperability and discoverability.
- Have experience with Encoded Archival Description (EAD) and XML-related tools such as Oxygen.
- Have an aptitude for complex, analytical work with excellent attention to detail.
- Be able to lift materials weighing up to 20 pounds.
- Provide two sample finding aids with detailed DACS elements, and which demonstrate historical research and writing ability.

Digital Archivist

Must:

- Have an ALA-accredited MLIS with a concentration in digital archiving, or a related field in information management, or a Society of American Archivists (SAA) Digital Archives Specialist (DAS) certificate.
- Have demonstrated knowledge of digital preservation standards and best practices for born-digital content.
- Have knowledge of establishing, arranging, describing, and maintaining control of born-digital archival materials in accordance with professional standards and practices to ensure the long-term preservation of collections.
- Be able to implement and/or create controlled vocabularies to facilitate arrangement and description when appropriate.

- Be able to screen out restricted, personal, classified, and proprietary information (such as social security numbers, credit card numbers, classified data, medical records, etc.) in digital archival files.
- Have experience with migration strategies to preserve digital objects.
- Be able to obtain and maintain a Secret clearance.

Librarian (Cataloging and Metadata)

Must:

- Have an ALA-accredited MLS or MLIS degree.
- Have two years' professional original and copy cataloging experience in a variety of formats, including monographs, audio and visual formats, maps, manuscripts, rare books, etc.
- Have expertise in handling older, delicate materials.
- Have knowledge of library automation/cataloging platforms such as EOS, OCLC, and Library of Congress classification.
- Be familiar with common metadata standards, such as MARC, MODS, Dublin Core, etc.
- Be able to support the ingestion and digitization of USACE publications by ensuring metadata meets standards for interoperability and end-user discoverability.
- Have one year's experience with development and/or maintenance of metadata files and the ability to identify errors in metadata.
- Have an aptitude for complex, analytical work with excellent attention to detail.
- Be able to lift materials weighing up to 20 pounds.

Supervisory Project Historian

Must:

- Have a doctorate in History or closely related field (such as American Studies or Political Science).
- Have five years' experience in research and writing on the history of the United States military or the U.S. Army Corps of Engineers.
- Have two years' experience overseeing historical research and writing projects.
- Have produced publications and/or papers demonstrating knowledge of and experience in conducting research at the National Archives and other government primary source repositories and in writing analytical and narrative historical studies.
- Provide three writing samples for evaluation.

Project Historian

Must:

- Have a master's degree in history or closely related field (such as American Studies or Political Science).
- Have five years' experience in research and writing on the history of the United States military or the U.S. Army Corps of Engineers. Knowledge of USACE's Civil Works missions and authorities can augment the first two criteria.
- Have two years' experience overseeing historical research and writing projects.
- Have produced publications and/or papers demonstrating knowledge of and experience in conducting research at the National Archives, other government primary source repositories, operational records maintained on site by federal government agencies, and in writing analytical and narrative historical studies.
- Provide three writing samples for evaluation.

Historian

Must:

- Have a master's degree in history or closely related field (such as American Studies or Political Science).
- Have three years' experience in research and writing on the history of the United States Military or the U.S. Army Corps of Engineers. Knowledge of USACE's Civil Works missions and authorities can augment the first two criteria.
- Have produced publications and/or papers demonstrating knowledge of and experience in conducting research at the National Archives and other government primary source repositories, in operational records maintained on site by federal government agencies and, in writing analytical and narrative historical studies.
- Provide three writing samples for evaluation.

Historical Researcher

Must:

- Have a master's degree in history or in a closely related field.
- Have three years' experience in conducting historical research in the National Archives, Federal Records Centers, the Library of Congress, and in the operational records maintained on site by federal government agencies.

Historical Research Assistant

Must:

- Have bachelor's degree in history or in a closely related field.
- Have one year's experience in conducting historical research in the National Archives, Federal Records Centers, the Library of Congress, and in the operational records maintained on site by federal government agencies.

Project Oral Historian

Must:

- Have at least a master's degree from an accredited college or university in a social science or related field.
- Have formal oral history training and four years' experience in conducting oral history interviews on topics related to United States military history.
- Have two years' experience developing and supervising the execution of oral history programs; to include establishing lines of inquiry, identifying potential interviewees, generating and reviewing questions, and reviewing and editing transcripts.
- Provide a list of at least 20 recently conducted oral history interviews and examples of five transcripts of interviews conducted within the last five years.

Oral Historian

Must:

- Have a bachelor's degree from an accredited college or university in a social science or related field.
- Have formal oral history training and two years' experience in conducting oral history interviews on topics related to United States military history.
- Provide a list of at least 10 recently conducted oral history interviews and examples of three transcripts of interviews conducted within the last two years.

Editor

Must:

- Have a master's degree in history, English, Journalism, or a related field. An undergraduate degree in History, English, Journalism, or a related field may be substituted for a master's degree provided the candidate has two years' experience in the editorial duties noted below.

- Have one year's experience in professional editing, ranging from substantive editing to proofreading and copyediting.

Graphic designer

Must:

- Have an undergraduate degree in Graphic Design, Architecture, Art and Design, or a closely related specialty.
- Have three years' professional design and production experience working on products similar to those stipulated in the performance work statement.
- Have three years' experience using Adobe Creative Cloud, including the current versions of InDesign, Photoshop, Illustrator, and Bridge.

- Provide three design samples for evaluation.

Project Manager

Must:

- Have a master's degree from an accredited college or university in a social science or humanities field.
- Have five years' experience as project manager of projects involving two or more of the following performance areas: historical research and writing, oral history, archival collections, or the preservation and conservation of material culture.
- Be able to deal effectively and diplomatically with individuals and groups, such as active duty and retired military and civilian personnel, the historical profession, individuals from foreign nations, and the general public.

Archaeologist

Must:

- Have a master's degree in Archaeology.

- Have extensive experience conducting anthropological/archaeological/historical studies of cultural resources.
- Have two years' experience that demonstrates a thorough knowledge of the fundamental principles and theories of professional archeology.
- Be able to prepare in-depth reports documenting anthropological/archaeological resources in compliance with federal cultural resource directives.
- Provide two writing samples.

Supervisory Museum Specialist

Must:

- Have a master's degree in history, Museum Studies, Archives Management, or in a related field.

- Have five years' experience working in the museum or archives environment, including basic care of historic documents or objects, knowledge of preservation materials and procedures, museum cataloging and administration, and museum exhibit design and production.
- Have one year's experience overseeing museum operations including supervising museum, exhibit, and audiovisual technicians and exercising quality control over projects.

Museum Specialist

Must:

- Have a master's degree in history, Museum Studies, Archives Management, or in a related field.
- Have three years' experience working in the museum or archives environment, including basic care of historic documents or objects, knowledge of preservation materials and procedures, designing displays of historical documents and artifacts, and museum cataloging and administration.
- Provide three samples of previous historical displays for evaluation.

Museum Technician

Must:

- Have a bachelor's degree in history, Museum Studies, Archives Management, or in a related field.

- Have five years' experience working in the museum or archives environment, including a knowledge of basic museum registration procedures, such as accessioning, deaccessioning, loaning, cataloging, and inventorying historic artifacts.
- Be able to use museum cataloging software and to prepare reports, spreadsheets, inventories, and condition assessments.
- Have knowledge of the museum environment and the appropriate storage and handling of artifacts.

Exhibit Designer/Specialist

Must:

- Have a bachelor's degree in Museum Studies, Design, Architecture, or closely related field and have demonstrable five years' experience designing exhibits for the museum or cultural resource preservation field.
- Be able to design two- and three-dimensional displays for housing objects, graphics panels, and multi-media components; have sophisticated knowledge of design and exhibit construction and the appropriate software to demonstrate the exhibit with images, mockups, and plans; and be able to prepare the final design for fabrication.
- Be able to communicate with clients, demonstrate understanding of the interpretive goals of the exhibit, and meet the specifications set out by the client.
- Have knowledge of museum exhibit standards such as lighting, temperature, humidity, and other environmental factors, as well as Americans with Disabilities Act standards for accessibility, visibility, and safety, and have knowledge of museum exhibit appropriate materials.

Audiovisual (AV) Exhibit Specialist

Must:

- Have a bachelor's degree and five years' experience designing and constructing audiovisual, interactive, and multimedia programs.
- Be able to identify possible source material and write interpretive text or script for audiovisual programs.
- Be able to identify proposed audiovisual equipment types (e.g., LCD screen, computer touchscreen, etc.) and identify and use appropriate software to produce the final AV product.
- Be able to set up and install the hardware and software in the physical exhibit space.

Exhibit Fabricator

Must:

- Have high school diploma and minimum ten years' experience constructing displays for museum environments with a demonstrable track record or references.
- Be able to read complete blueprints and construction drawings; apply standard measurements, specifications, and instructions; and understand AV hookups and mounting techniques.
- Be able to fabricate displays, including but not limited to: applying trims and finishes, installing hardware, and applying stains, varnishes, paints, and laminates.
- Have a working knowledge of recommended or best materials used for graphics and signage and museum appropriate materials for exhibition of artifacts.

Section F - Deliveries or Performance

PERFORMANCE OF SERVICES

F1 PERIOD OF PERFORMANCE

This agreement will have an Ordering Period of 5 Years. The period of performance for each call issued under this agreement will be specified in the Performance Work Statement for the call.

F2 PLACE OF PERFORMANCE:

The majority of the work will take place at the Contractor's facility. Some work may be required at the Office of History's Office at Alexandria, Virginia or at other locations the government may designate. Occasional travel may be required and will be specified at the BPA Call level.

F3 ON / OFF RAMP

In accordance with RFO12.201-1(e)(3)(v), The U.S. Army Corps of Engineers intends to utilize on and off ramps, as necessary, to maintain a sufficient pool of Master Agreement holders. It is solely up to the Government to determine whether or not on and/or off ramps will occur. During a contract on-ramp, the Government will accept and evaluate new proposals with the intention of adding additional BPAs to the suite of Master Agreement holders to refresh the pool of competition and provide the Government with adequate competition. These proposals shall be subject to the same proposal instructions and evaluation procedures as contained in this solicitation. During a contract off-ramp, the Contracting Officer may elect to remove firms from the Master Agreement holder pool. This can be performed by, termination for convenience, or termination for default.
The decision points below include, but are not limited to, some of the reasons why an on- or off-ramp may occur.

On-Ramp:

- If the Government feels the BPA pool needs additional competition
- If market research shows there are more entrants to this market
- If the number of requirements unexpectedly increases

Off-Ramp:

- If a contractor is failing to sufficiently participate on BPA Call requirements
- If a contractor is no longer a qualified small business
- If a contractor has a documented poor performance record

Section G - Contract Administration Data

CONTRACT ADMINISTRATION INFORMATION

G1 INVOICE INSTRUCTIONS

USACE will process BPA Calls to finalize each transaction. Contractor may invoice upon the delivery of service after receipt of a fully executed BPA Call. Individual calls may have milestones /phases, etc. built into the PWS to allow payment as each portion of a project/job is completed.

PAYMENT SCHEDULE AND INVOICE SUBMISSION (FFP COMMERCIAL)

a. General. The Government shall pay the Contractor as full compensation for all work required, performed and accepted under this contract, inclusive of all costs and expenses, the firm-fixed price stated in this the BPA Call awarded from this BPA.

The Contractor shall provide invoices in accordance with RFO 32.905(b). Electronic invoice submissions must be created in black and white and in Adobe's Portable Document Format (PDF) and comply with the requirements specified within this contract. At a minimum, invoices will contain the following elements:

- Name and address of the contractor (Note: Differences between the contractor name andremittance address on the invoice and the data shown in the System for Award Management (SAM) record can potentially cause delays in payment. Please verify these data agree exactly.)
- Invoice date and number.
- Entire Contract number, contract line item number, the order number and modification number, as applicable.
- Description, quantity, unit of measure, unit price, and extended price of the item delivered. Item description must match those contained in the purchase order/contract description.
- Name and address of official to whom payment will be sent.

b. Invoice Submission. In accordance with FAR 52.212-4(g), the Contractor shall submit an electronic invoice via e-mail to CEFC.CEFC-PAYMENTS@USACE.ARMY.MIL and copy furnish the CONTRACT SPECIALIST, CONTRACTING OFFICER, and the CEHO POC. The subject line shall include the contract number, project number, and invoice number and the contractor's final invoice should be marked as such.

CONTRACT SPECIALIST: Giuseppe G. Mirizzi, giuseppe.g.mirizzi@usace.army.mil. Provided with each BPA Call award

CONTRACTING OFFICER: W. Dale Dewar, Wesley.D.Dewar@usace.army.mil. Provided with each BPA Call award

CEHO POC: Dr. John Lonnquest, john.c.lonnquest@usace.army.mil. Provided with each BPA Call award

CONTRACTOR POC: TBD. Provided with each BPA Call award.

The subject line shall include the contract number, project number, and invoice number and the contractor's final invoice should be marked as such.

Note: Differences between the Contractor name and remittance address on the invoice and the data shown in the System for Award Management (SAM) record can potential cause delays in payment. Please verify these data elements agree exactly.

c. Questions Regarding Payment. Questions regarding status of payment should be directed to the USACE Finance Center at CEFC-Payments@usace.army.mil (if more than 30 days have passed since the invoice was submitted).

d. Invoice Schedule: Contractor agrees to submit invoices in accordance with the following schedule unless otherwise agreed upon at the individual BPA Call level: Monthly, concurrent with submittal of Monthly Status Report (MSR).

(End of Clause)

G2 CONTRACTING OFFICER/AUTHORITY

Only a warranted Contracting Officer (either a Procuring Contracting Officer (PCO) or an Administrative Contracting Officer (ACO)), acting within their delegated limits, has the authority to issue modifications or otherwise change the terms and conditions of this Master Agreement and, or the BPA Calls issued under it. If an individual other than the Contracting Officer attempts to make changes to the terms and conditions of this Master Agreement and, or the BPA Calls issued under it, you shall not proceed with the change and shall immediately notify the Contracting Officer.

(End of Clause)

G3 CONTRACTING OFFICER REPRESENTATIVES (COR's)

a. The Contracting Officer may appoint one or more Government employees as Contracting Officer Representatives (COR's) for technical purposes applicable to this contract. This individual will represent the Contracting Officer in the technical phases of work, but will not be authorized to change any of the terms and conditions of the contract or direct work that will require an amendment to the contract.

b. Only a warranted Contracting Officer (either a Procuring Contracting Officer (PCO), or an Administrative Contracting Officer (ACO)), acting within their delegated limits, has the authority to issue modifications or otherwise change the terms and conditions of this contract. If an individual other than th Contracting Officer attempts to make changes to the terms and conditions of this contract you shall not proceed with the change and shall immediately notify the Contracting Officer.

c. COR appointment(s) shall be in writing, signed by the Contracting Officer, and shall set forth the authority granted to and the limitations of the COR. The appointment letter shall be provided to the contractor who shall acknowledge receipt of the appointment letters in writing without delay. Such signing shall represent the contractor's acknowledgement of the limited authority of the COR.

d. COR appointments may be changed or revoked by the Contracting Officer in writing.

G4 CORRESPONDENCE

All correspondence and data submitted by the contractor under this contract shall reference the contract number.

G5 CONSTRUCTIVE CHANGE ORDERS

No order, statement or conduct of the Contracting Officer, the authorized representative of the Contracting Officer, whether or not acting within the limits of his authority, or any other representative of the Government, shall constitute a change under the "Changes" clause of this contract or entitle the contractor to an equitable adjustment of the contract price or delivery schedule under that or any other clause, unless such change is issued in writing and signed by the Contracting Officer. No representative of the Contracting Officer (either PCO or ACO) shall be authorized to issue a written change order under the "Changes" clause of this contract. The Contractor shall be under no obligation to comply with any orders or directions not issued in writing and signed by the Contracting Officer.

Section H - Special Contract Requirements

H1- BPA Specific Terms and Conditions

The issuance of individual calls against this Blanket Purchase Agreement (BPA) will be made under the authority of FAR Subpart 12.201-1(e)(3), Blanket Purchase Agreements.

1. GENERAL CATEGORIES OF SERVICES UNDER THIS AGREEMENT: The North American Industrial Classification System (NAICS) code for this acquisition is 541720, Research and Development in the Social Sciences and Humanities; with a size standard of $28,000,000.00. PSC Code for this acquisition is B521, Special Studies/Analysis - Historical.

2. ORDERING PERIOD: 5 year ordering period to be selected at time of award.

3. VENDOR POINT OF CONTACT: To be selected at time of award.

4. NOTICE OF INDIVIDUALS AUTHORIZED TO PLACE CALLS: Calls under this Blanket Purchase Agreement (BPA) will be placed by the personnel listed at the end of this provision.

5. OBLIGATION: The government will be obligated under this BPA only to the extent of authorized purchases actually made under the BPA during the agreement period.

6. PRICING: Prices will be proposed per each individual BPA Call. The prices proposed to the government should be as low as, or lower than those charged the supplier's most favored customer for comparable quantities under similar terms and conditions in addition to any discounts for prompt payment.

7. CALL LIMITATION:

BPA MASTER ORDERING PERIOD DOLLAR LIMIT: $7,500,000.00.

BPA CALL LIMIT PER CALL: $350,000.00

CENTRALIZED BPA CALL ORDERING (Contracting Officer): All BPA Calls will be issued by the Contracting Officer on a DD1449 or DD1155.

8. INSPECTION AND ACCEPTANCE: At destination.

9. INVOICING: See Section G.

H2 - GOVERNMENT RESERVED RIGHTS

The Government reserves the right to approve contractor recommended changes in key personnel during the life of the agreement. See key positions as displayed in PWS in Appendix A, Labor Categories.

(End of Clause)

H3 - SAFEGUARDING OF INFORMATION

The Contractor and its employees shall exercise the utmost discretion in regard to all matters relating to their duties and functions. They shall not communicate to any person any information known to them by reason of their performance of services under this contract which has not been made public except in the necessary performance of their duties or upon written authorization of the Contracting Officer. All documents and records (including photographs) generated during the performance of work under this contract shall be for the sole use of and become the exclusive property of the U.S. Government. Furthermore, no article, book, pamphlet, recording, broadcast, speech, television appearance, film or photograph concerning any aspect of work performed under this contract shall be published or disseminated through any media without the prior written authorization of the Contracting Officer's Representative. These obligations do not cease upon the expiration or termination of this contract. The Contractor shall include the substance of this provision in all contracts of employment and in all subcontracts hereunder.

(End of Clause)

H4 - ORDERING

The resulting agreement will include an ordering period of five years from the date of award. There is no guarantee that the agreement will continue through the entire ordering period. There is no minimum guarantee call for the BPAs. The minimum order (BPA Call) amount for the BPA is $2,500.00. The maximum ordering (BPA Call) amount of $350,000.00. BPAs will be reviewed

annually to determine if the Government need still exists, if adequate competition is being achieved, if small business compliance requirements are being met, and to evaluate the contractor's performance under the BPA. Awarded BPAs will share an estimated capacity of $7,500,000.00 over the duration of the five year ordering period. The Government reserves the right to compete and/or rotate BPA Calls as necessary to ensure adequate levels of competition and participation amongst BPA holders is maintained. The supplier will furnish "CEHO Historical Support Services" if and when requested by authorized individuals during the specified ordering period and within the stipulated aggregate amount. The only authorized ordering office is the USACE Mission Support Battalion (UMSB).

The Government is only obligated under this agreement to the extent of authorized purchases actually made under the BPA.

The Contractors who receive award of an agreement under this solicitation will have a maximum capacity (ceiling) of $7,500,000.00 over the duration of the ordering period.

In accordance with RFO 12.201-1(e)(3)(C), individual calls shall not exceed the simplified acquisition threshold ($350,000.00).

The only authorized ordering office is the USACE Mission Support Battalion (UMSB).

Calls under this Blanket Purchase Agreement may only be placed by warranted Procuring Contracting Officers (PCO), Administrative Contracting Officers (ACO), or other designated Contracting Officers within USACE Mission Support Battalion Contracting Office.

(End of Clause)

H5- BPA CALLS

The Contractor will be required to provide historical support services in accordance with this contract through the issuance of BPA Calls.

Each BPA receipt will be provided fair opportunity for each BPA call in accordance with RFO 16.507. Each BPA Call shall be issued on a DD Form 1155 or 1449, and will contain an individual BPA Call number, by which the Contractor will identify the effort on all documentation, including but not limited to, invoices, vouchers, correspondence and reports.

Prior to issuance of any BPA Call over $2,500.00, the Government will transmit a Request for BPA Call Proposal (RFBCP) to the awardees based on the procedures in RFO FAR 12.201-1(e)(3), Blanket purchase agreement and RFO FAR 16.507-3. After receipt of the RFBCP for the individual BPA Call, the contractor shall provide a proposal by a required date utilizing the labor categories and prices set forth in the BPA. Each individual BPA Call proposal must include a technical section and all price elements requested in the RFBCP (i.e. labor and travel required for completion of the PWS). Based upon the proposals received, the Government will select the proposal with the best value to the Government using comparative evaluation and a BPA Call will be issued bilaterally to the successful offeror.

The contractor's proposal must address all requirements of the RFBCP and its accompanying Performance Work Statement and shall be submitted in two separate parts: a Technical Volume and a Price Volume. The Government will award a call resulting from the RFBCP provided that a t echnically acceptable proposal that meets all the technical requirements listed in the RFBCP is received, along with a price that is fair and reasonable.

The Contractor shall maintain adequate reach-back capabilities, staffing, and resources to manage and execute multiple calls concurrently. The issuance of simultaneous calls shall not alleviate the Contractor of their responsibility to meet all schedule, pricing, and technical requirements across all active calls without degradation of performance.

Contractor shall not perform any services prior to receipt of the signed BPA Call, unless otherwise authorized by the Contracting Officer.

All BPA Calls issued are subject to the terms and conditions of the Master Agreement. The Master Agreement shall control in the event of conflict with any BPA Call.

The services to be performed shall be in accordance with the written PWS attached to each BPA Call.

A Point of Contact will be designated in each RFBCP for the submission of questions. All questions must be submitted in writing by the date and time specified in the RFOP.

The Maximum price for an individual BPA Call is $350,000.00.

(End of Clause)

H6 - Insurance Requirements

Individual BPA Calls may require the Contractor to provide insurance. Accordingly, RFO 52.228-5: Insurance - Work on a Government Installation is included in the BPA. If insurance is required for an individual BPA Call, the PWS and solicitation for that BPA Call will give notice that a certificate of insurance is required.

(End of Clause)

252.204-7017	Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services-Representation.	2021-05

PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES-REPRESENTATION (MAY 2021)

The Offeror is not required to complete the representation in this provision if the Offeror has represented in the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument."

(a) Definitions. "Covered defense telecommunications equipment or services," "covered mission," "critical technology," and "substantial or essential component," as used in this provision, have the meanings given in the 252.204-7018 clause, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services, of this solicitation.

(b) Prohibition. Section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits agencies from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at https://www.sam.gov for entities that are excluded when providing any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.

(d) Representation. If in its annual representations and certifications in SAM the Offeror has represented in paragraph (c) of the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does" provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument, then the Offeror shall complete the following additional representation:

The Offeror represents that it [ ] will [ ] will not provide covered defense telecommunications equipment or services as a part of its offered products or services to DoD in the performance of any award resulting from this solicitation.

(e) Disclosures. If the Offeror has represented in paragraph (d) of this provision that it "will provide covered defense telecommunications equipment or services," the Offeror shall provide the following information as part of the offer:

(1) A description of all covered defense telecommunications equipment and services offered (include brand or manufacturer; product, such as model number, original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable).

(2) An explanation of the proposed use of covered defense telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition referenced in paragraph (b) of this provision.

(3) For services, the entity providing the covered defense telecommunications services (include entity name, unique entity identifier, and Commercial and Government Entity (CAGE) code, if known).

(4) For equipment, the entity that produced or provided the covered defense telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known).

(End of provision)

252.204-7998	Alternate A, Annual Representations and Certifications. (DEVIATION 2026-O0043)	2026-02	Alternate A Deviation 2026-O0043	2026-02 2026-02

Alternate A, Annual Representations and Certifications (DEVIATION 2026-O0043)(FEB 2026)

Include the following paragraphs (e), (f), and (g) in the provision at FAR 52.204-7:

(e)(1) If the provision at FAR 52.204-7, System for Award Management - Registration, is included in this solicitation, paragraph (g) of this provision applies.

(2) If the provision at FAR 52.204-7, System for Award Management - Registration, is not included in this solicitation, and the Offeror has an active registration in the System for Award Management (SAM), the Offeror may choose to use paragraph (g) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes:

[ ] (i) Paragraph (g) applies.

[ ] (ii) Paragraph (g) does not apply and the Offeror has completed the individual representations and certifications in the solicitation.

(f)(1) The following representations or certifications in the SAM database are applicable to this solicitation as indicated:

(i) 252.204-7016, Covered Defense Telecommunications Equipment or Services--Representation. Applies to all solicitations.

(ii) 252.216-7008, Economic Price Adjustment--Wage Rates or Material Prices Controlled by a Foreign Government. Applies to solicitations for fixed-price supply and service contracts when the contract is to be performed wholly or in part in a foreign country, and a foreign government controls wage rates or material prices and may during contract performance impose a mandatory change in wages or prices of materials.

(iii) 252.225-7042, Authorization to Perform. Applies to all solicitations when performance will be wholly or in part in a foreign country.

(iv) 252.225-7049, Prohibition on Acquisition of Certain Foreign Commercial Satellite Services--Representations. Applies to solicitations for the acquisition of commercial satellite services.

(v) 252.225-7050, Disclosure of Ownership or Control by the Government of a Country that is a State Sponsor of Terrorism. Applies to all solicitations expected to result in contracts of $150,000 or more.

(vi) 252.229-7012, Tax Exemptions (Italy)--Representation. Applies to solicitations when contract performance will be in Italy.

(vii) 252.229-7013, Tax Exemptions (Spain)--Representation. Applies to solicitations when contract performance will be in Spain.

(2) The following representations or certifications in SAM are applicable to this solicitation as indicated by the Contracting Officer: [Contracting Officer check as appropriate.]

[ ](i) 252.209-7002, Disclosure of Ownership or Control by a Foreign Government.

[ ](ii) 252.225-7000, Buy American--Balance of Payments Program Certificate.

[ ](iii) 252.225-7020, Trade Agreements Certificate.

[ ]Use with Alternate I.

[ ](iv) 252.225-7031, Secondary Arab Boycott of Israel.

[ ](v) 252.225-7035, Buy American--Free Trade Agreements--Balance of Payments Program Certificate.

[ ]Use with Alternate I.

[ ]Use with Alternate II.

[ ]Use with Alternate III.

[ ]Use with Alternate IV.

[ ]Use with Alternate V.

[ ] (vi) 252.226-7002, Representation for Demonstration Project for Contractors Employing Persons with Disabilities.

[ ] (vii) 252.232-7015, Performance-Based Payments--Representation.

(g) The Offeror has completed the annual representations and certifications electronically via the SAM website at https://www.sam.gov After reviewing the SAM database information, the

Offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in FAR 52.204-7 and paragraph (f) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer, and are incorporated in this offer by reference (see FAR 4.203-1); except for the changes identified below [Offeror to insert changes, identifying change by provision number, title, date]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

Section L - Instructions, Conditions, & Notices to Offerors or Quoters

Combined Synopsis/Solicitation Number: W912HQ26QA023

Request for Proposals - USACE History Office (CEHO) Historical Support Services

I. GENERAL INFORMATION:

This is a combined synopsis/solicitation for commercial services prepared in accordance with the format in Revolutionary FAR Overhaul (RFO) 12.202 - Publicizing, as supplemented with additional information included in this notice and RFO Part 12 and RFO Part 5 procedures. This announcement constitutes the only solicitation. Offers are being requested, and a separate written solicitation will not be issued.

Solicitation number W912HQ26QA023 is issued as a request for quotation (RFQ) for USACE History Office (CEHO) Historical Support Services. A Blanket Purchase Agreement (BPA) will be issued in accordance with the following:

This acquisition is being solicited as a Small Business set-aside. The North American Industrial Classification System (NAICS) code for this acquisition is 541720, Research and Development in the Social Sciences and Humanities; with a size standard of $28,000,000.00. PSC Code for this acquisition is B521, Special Studies/Analysis - Historical.

To be eligible to receive an award resulting from this RFQ, Contractors must be registered in the System for Award Management (SAM) database, no exceptions. To register, please visit http://www.sam.gov.

This solicitation incorporates provisions and clauses by reference. The full text of provisions and clauses may be accessed electronically at www.acquisition.gov.

This procurement will be awarded under Simplified Acquisition Procedures in accordance with RFO 12.201-1 Simplified procedures.

It is anticipated that multiple blanket purchase agreements (BPAs) will be established as a result of this combined synopsis/solicitation

The Offeror's proposal must include all data and information requested in this section and must be submitted in accordance with these instructions. Any Offeror who submits an incomplete package may be considered ineligible for award (BPA). The proposal must be compliant with the requirements as stated in the Performance Work Statement and Appendices thereto and contain all of the content specified below. Non-conformance with the instructions provided in this section may result in an unfavorable proposal evaluation.

Offerors shall submit proposals via email to the Contract Specialist Giuseppe G. Mirizzi at email: giuseppe.g.mirizzi@usace.army.mil . All documents and, or files submitted should contain the solicitation number W912HQ26QA023. Electronic submissions are required. Failure to submit proposals by the stated deadline may result in the proposal being deemed "late" and not considered for evaluation. Proposals will not be returned (except for timely withdrawals) but will be retained by the Government for official record purposes. Offerors should submit proof of timely submission to the Contract Specialist. i.e. a screenshot. Proposals must be received no later than Monday, 21 September 2026 at 12:00 pm EST.

Offerors may submit inquires, questions or comments relating to this solicitation via email to giuseppe.g.mirizzi@usace.army.mil and wesley.d.dewar@usace.army.mil on or before 5:00 pm EST on Monday 14 September 2026. Email subject line shall read: "Solicitation No. W912HQ-20-R-0005 Questions". The Government will consider all correspondence but will not issue individual responses; instead, if appropriate, a solicitation amendment will be issued. No questions will be accepted via phone. Individual meetings with firms will not be scheduled. Voicemails with questions and/or requests for meetings will not receive a response. Questions received after 5:00 pm EST on Monday 14 September 2026 may or may not be answered.

It is the Offeror's responsibility to ensure the proposal has been received by the contracting office via email. Fax proposals will not be accepted. Late proposals will be processed in accordance with RFO 52.212-1(c) "Late submission, modifications, revisions, and withdrawals of offers." Upon receipt of the electronic offer, the Government will acknowledge receipt of that offer via email to the Offeror.

II. NATURE OF ACQUISITION:

The Office of History, Headquarters, U.S. Army Corps of Engineers (CEHO), located in Alexandria, Virginia, is responsible for collecting, preserving, interpreting, and disseminating the history of the US Army Corps of Engineers (USACE), as outlined in AR 870-5 (Military History), AR 870-20 (Army Museums), and ER 870-1-1 (Field Operating Activities - Historical Programs). To accomplish its mission, CEHO's historical and curatorial staff conduct the following activities: researching, writing, and reviewing a wide variety of historical products; collecting, arranging, cataloging, digitizing, and preserving historical documents, photographs, and artifacts; and managing a wide-ranging oral history program. To advance its mission and effectively serve the demand for historical services from the USACE enterprise, CEHO requires a historical services contractor to support CEHO; all USACE organizations and activities; and the history and the museum staffs at the U.S. Army Engineer School at Ft. Leonard Wood, Missouri.

III. SCHEDULE OF SUPPLIES/SERVICES:

Order Period:

This Blanket Purchase Agreement (BPA) will have an ordering period of five (5) years from the date of award.

Performance will take place at:

The Government anticipates that much of the work required will be in the Washington metropolitan area. Unless otherwise specified, services provided in the District of Columbia, as well as in the neighboring jurisdictions in Maryland and Virginia, including the Office of History's office in Alexandria, Virginia, will be considered local and the Contractor will not be reimbursed for travel expenses in those areas. The cost of travel outside of the Washington metropolitan area will be set forth in each BPA Call and reimbursed in accordance with the Joint Travel Regulations.

IV. PROPOSAL CONTENT:

The proposals shall be prepared clearly and concisely to demonstrate that the Offeror has a complete understanding of the requirements. Offerors shall prepare proposals on the presumption that the Government has no previous knowledge of the Offeror's capabilities. Proposals will be evaluated only on the information specifically presented in respective submittals, with the exception of the Past Performance evaluations. When applicable, the Offeror shall cross reference to the solicitation by annotating solicitation reference in parenthesis, (i.e. Sec C, para 4.0). Proposals must set forth full, accurate, and complete information as required by this solicitation.

Offerors should submit their best proposal initially as the Government intends to make awards (BPAs) without discussions (however clarifications may occur). The Government reserves the right to conduct discussions if the Contracting Officer determines it is necessary.

V. BASIS FOR AWARD:

In accordance with RFO 12.203, Evaluation, all offers will be comparatively evaluated based on the factors described below: Technical Approach and Past Performance.

The following Evaluation Factors and sub-Factors will be used in this document to comparatively evaluate the proposals:

1) Technical Approach:

a. Technical Resources: Offerors shall demonstrate how the necessary technical resources will be obtained in order to successfully accomplish the PWS tasks in a timely and cost-effective manner. The Government will evaluate the offeror's capability to successfully perform those PWS tasks which require use of technical resources.

b. Key Personnel and Staffing: Offeror shall demonstrate that they have qualified personnel that meet or exceed the requirements of the PWS that will sufficiently able to accomplish the work required as well as demonstrate the ability of the offeror to maintain adequate staffing for future BPA Calls and concurrent BPA Calls. The Government will evaluate the extent to which the offeror demonstrates that the proposed key personnel qualifications and experience meet or exceed the requirements of the PWS and are sufficient to effectively accomplish the work required as well as the ability of the offeror to maintain adequate staffing for future and concurrent BPA Calls.

2) Past Performance:

a. Relevant Past Performance: Offeror shall demonstrate it has recent and relevant past performance for the previous three years. Offerors must demonstrate their business or personnel experience in performing the tasks listed in section 3 of the PWS which are of similar scope and complexity as well as use of historical resources and products produced. Past Performance must be recent and relevant with respect to the PWS for the Master BPA Relevant past performance for the previous three years will be evaluated for relevance and performance confidence. Consideration will be given to those aspects of an offeror's performance history that would give the greatest ability to predict whether the offeror will satisfy the current requirement from a contractual, managerial, and technical perspective.

The Naval Facilities (NAVFAC)/USACE Past Performance Questionnaire (PPQ) included in the solicitation is provided for the offeror or its team members to submit to the client for each project the offeror includes in its proposal for Past Performance evaluation factor. Completed PPQs should be submitted with your proposal as required by RFP Section W912HQ26QA023. Offerors shall not incorporate by reference into their proposal PPQs previously submitted for other RFPs /RFQs. This does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation (such as CPARS). While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

Basis of Award: It is our intent to award an agreement (BPA) to all responsible and responsive offerors whose proposals conform to this solicitation and meet or exceed all minimum technical and qualification requirements as documented in the Performance Work Statement and the non-price factors above.

VI. NAVFAC/USACE PAST PERFORMANCE QUESTIONNAIRE (PPQ):'

The Past Performance Questionnaire (PPQ) included in the solicitation is provided for the offeror or its team members to submit to the client for each project the offeror includes in its proposal for " Relevant Past Performance" Factor. Ensure correct phone numbers and email addresses are provided for the client point of contact. Completed Past Performance Questionnaires should be submitted with your proposal. If the offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the offeror should complete and submit with the proposal the first page of the PPQ, which will provide contract and client information for the respective project(s). Offerors should follow-up with clients/references to ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Giuseppe G. Mirizzi via email at giuseppe.g.mirizzi@usace.army.mil prior to proposal closing date. Offerors shall not incorporate by reference into their proposal PPQs previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation.

Also include performance recognition documents received within the last 3 years such as awards, award fee determinations, customer letters of commendation, and any other forms of performance recognition.

In addition to the above, the Government may review any other sources of information for evaluating past performance. Other sources may include, but are not limited to, past performance

information retrieved through the Contractor Performance Assessment Reporting System (CPARS), using all CAGE/DUNS numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the offeror.

While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

VII. PROPOSAL PREPARATION INSTRUCTIONS:

See RFO 52.212-1 Instruction to Offerors - Commercial Products and Commercial Services for additional preparation instructions for your proposal.

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to all responsible Offerors whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to comparatively evaluate offers:

- Technical
- Past Performance

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)
