U.S. SMALL BUSINESS ADMINISTRATION

OFFICE OF CAPITAL ACCESS

OFFICE OF CREDIT RISK MANAGEMENT

RISK MANAGEMENT, FINANCIAL ANALYSIS, AND ADMINISTRATIVE SUPPORT SERVICES

PERFORMANCE WORK STATEMENT (PWS)

1. Purpose

This Performance Work Statement (PWS) describes the non-personal services required by the U.S. Small Business Administration (SBA). The services required under this PWS are non-personal services, as defined by the Federal Acquisition Regulation (FAR).

This PWS sets forth the requirements for Risk Management, Financial Analysis, and Administrative Support Services for the Office of Capital Access (OCA), Office of Credit Risk Management (OCRM).

Task Orders issued under this PWS will be placed against the single-award indefinite-delivery, indefinite-quantity (IDIQ) contract. All services will be obtained through the issuance of labor-hour (LH) Task Orders.

The required services of this PWS shall be provided in accordance with the requirements specified in the IDIQ contract incorporated in Appendix A – Position Description (Page 18) and any issued Task Orders. The Contractor shall not begin performance prior to the issuance of a Task Order.

2. Background

The U.S. Small Business Administration (SBA) was created in 1953 as an independent agency of the federal government to aid, counsel, assist, and protect the interests of small business concerns, to preserve free competitive enterprise, and to maintain and strengthen the overall economy of our nation. The SBA's mission is to help Americans start, build, and grow businesses.

The mission of the Office of Capital Access (OCA) is to help make capital available through banks and other lending partners (SBA Lenders). One of the financial vehicles used by OCA in making capital available is the guarantee of individual loans originated by participating SBA Lenders under the 7(a) Loan Program. Loan guarantees are provided when the SBA Lender can substantiate that SBA Loan Program Requirements have been met.

To remain a viable program, Lender activities are monitored by the Office of Credit Risk Management (OCRM), a department within OCA. OCRM is tasked with various oversight activities including, but not limited to, conducting risk-based reviews. These oversight activities are led by OCRM staff. However, to accomplish its goals, OCRM utilizes contractors for support activities.

3. Scope

The Contractor shall provide personnel with the ability to augment the SBA's workforce and support OCRM at its Headquarters office in Washington, D.C. Personnel provided shall support OCRM's activities, to include:

- Collection, inspection, and analysis for delegated authority renewals, nominations, add-ons, and re-delegations

- Documented analysis of quarterly condition reports and annual reports for SBA Supervised 7(a) Lenders
- Desktop Reviews and other diagnostic activities to assess 7(a) Lender risk
- Assistance in the preparation of information for provision to internal and external stakeholders
- Assistance with 7(a) loan transfers
- Assistance with invoice resolution
- Maintenance of protocols and generation of deliverables to identify SBA Lenders that are, or should be, subject to increased supervision and/or enforcement actions
- Assistance with ad hoc efforts to mitigate risk and ensure 7(a) Loan Program integrity

4. Contract Type and Structure

4.1 Contract Vehicle

This procurement is for a single-award indefinite delivery, indefinite quantity (IDIQ) contract to obtain non-personal services. The contract is for a base year and four option years. Task Orders will be issued on a labor-hours (LH) basis using the Contractor's fully loaded labor-hour rates, applicable labor categories, and required level of effort.

The Government anticipates procuring this service as a competitive set-aside restricted to responsible Small Business Administration (SBA)-certified Women-Owned Small Businesses (WOSBs) participating in the WOSB Federal Contract Program, under an appropriate North American Industry Classification System (NAICS) code authorized for WOSB set-asides in accordance with 13 CFR 127 and FAR Subpart 19.15. This requirement is classified under NAICS code 541611, Administrative Management and General Management Consulting Services, for purposes of small business and WOSB eligibility. Offerors must be currently certified as WOSBs by SBA (or an SBA-approved third-party certifier recognized under the WOSB Federal Contract Program) and eligible in the SBA WOSB certification system at the time of proposal submission and at time of award.

In accordance with FAR 16.602, a labor-hour contract is a variation of the time-and-materials contract, differing only in that materials are not supplied by the Contractor. The Contracting Officer has executed a determination and findings (D&F) pursuant to FAR 16.601(d) that no other contract type is suitable. Each Task Order shall include a ceiling price that the Contractor exceeds at its own risk, as required by FAR 16.601(d)(2).

4.2 Ordering Procedures

- When a Task Order is issued to the Contractor, Contractor shall confirm the terms of the Task Order within 10 working days and sign the Task Order provided by the SBA
- If any clarifications or corrections are required to a Task Order, Contractor shall provide the clarifications/corrections within five working days
- Each Task Order will be issued on a labor-hours basis with a ceiling price that serves as a not-to-exceed amount, based on Contractor's fully loaded labor-hour rates and required labor categories. Payment shall be made in accordance with FAR 52.232-7, Payments under Time-and-Materials and Labor-Hour Contracts
- A Task Order is binding when signed by both parties, using a Standard Form (SF) 1449
- Only an SBA Contracting Officer (CO) can issue, negotiate, and obligate Task Orders
- No agreements by the Government to place future orders are stated or implied
- Terms and conditions will be stated in each Task Order. The basic IDIQ contract also contains terms and conditions. In the event of conflict, the terms and conditions of the Task Order will have priority

- Each Task Order will have the relevant Department of Labor Wage Determination for the locations where work is to be performed both attached and incorporated

The Contractor is not obligated to accept orders below the contract minimum order amount or above the contract maximum order limitation stated in the contract.

4.3 Maximum and Minimum Task Order and Contract Amounts

The minimum amount for a Task Order is $5,000.00. The maximum amount for a Task Order is $1.5 million. Task Orders may be proposed that are for less than the minimum or more than the maximum, and the Contractor may choose (but is not required) to accept them.

For all Task Orders placed pursuant to this IDIQ Contract, the maximum total amount that will be ordered for the entire period of performance (base year and any exercised option years) is estimated to be $7.5 million. The minimum total amount that may be ordered is estimated to be $25,000.00.

5. Overall Performance Requirements

The Contractor shall provide staffing augmentation in support of risk management, financial analysis, special project management and support, and other key functions supporting the Office of Credit Risk Management. The Contractor's services shall focus on achieving the following performance outcomes:

5.1 Required Outcomes

- Contractor employees occupying each position shall demonstrate proficiency in written English (grammar, punctuation, and formatting) and shall be familiar with financial concepts and principles applicable to SBA 7(a) delegated lender authority nominations, renewals, and related processing

- The Contractor shall perform the administrative research necessary, to include but not be limited to, collecting all required information and certification from the SBA Lender and internal partners, such as the District Office, to assist the SBA in determining eligibility and qualification for the specific status being sought

- Contractor shall complete risk-based reviews, including Desktop Reviews, utilizing the Lender Portal, SBA's Capital Access Financial System, and other resources that may be provided to perform data and diagnostic analysis in the generation of work papers and a finished report detailing the results of the analysis

- Contractor shall perform documented analysis of quarterly condition reports and annual reports for SBA Supervised 7(a) Lenders, identifying trends, risks, and areas of concern to support OCRM's ongoing monitoring and oversight activities

- Contractor shall assist in the preparation of information for provision to internal and external stakeholders, including the compilation, formatting, and quality review of data, reports, and correspondence as directed by OCRM

- Contractor shall assist with 7(a) loan transfers, including the collection, review, and processing of transfer documentation and coordination with relevant parties to ensure timely and accurate completion

- Contractor shall assist with invoice resolution

- Contractor shall maintain protocols and generate deliverables to identify SBA Lenders that are, or should be, subject to increased supervision and/or enforcement actions, including tracking, documenting, and reporting findings in accordance with OCRM procedures

- Contractor shall assist with ad hoc efforts to mitigate risk and ensure 7(a) Loan Program integrity, including special projects, data analysis, and other tasks as directed by OCRM to address emerging risks or program concerns

- Contractor shall provide on-site supervision of its employees in accordance with Section 7.2

Position descriptions associated with these outcomes are provided in Attachment A.

6. Required Personnel Labor Categories

Contractor shall have access to the following listed labor categories which are more fully described in Attachment A. Since work is to be performed in SBA's listed offices, Contractor shall have access to workers within these labor categories who can perform the work in physical areas listed in this Performance Work Statement (PWS). The labor categories are as follows:

- On-Site Supervisor
- Administrative Assistant
- Financial Analyst
- Program Analyst I, II, and III

Contractor agrees that, for the benefit of the Government and center workload needs, the Government may elect not to backfill immediately when a contractor employee leaves Contractor for any reason during a Task Order period of performance (POP). In the event of the Contractor providing fewer positions than originally stated in the Task Order, the parties will bilaterally modify the Task Order to reduce the corresponding price accordingly.

7. Key Personnel Requirements

7.1 Project Manager

The Contractor shall provide a Project Manager who shall be responsible for all Contractor work performed under this PWS. The Project Manager is a Key Personnel position subject to replacement approval by the CO in accordance with the contract's Key Personnel clause.

The contractor shall not bill SBA directly for the time and services of the Project Manager. The services of the Project Manager shall be considered a management function of the Contractor and shall be absorbed in the overall cost of general and administrative expenses. It is expressly understood that the Project Manager costs are part of the fully loaded labor rates for the designated labor categories and shall not be separately charged to the SBA.

The Project Manager shall have demonstrated experience managing multiple concurrent Task Orders involving risk management, financial analysis, or administrative support services, including contract administration and customer relations. Contractor's Project Manager shall ensure that the requirements of this contract are fully met.

The Project Manager shall be a single point of contact for the Contracting Officer (CO) and the Contracting Officer's Representative (COR). It is anticipated that the Project Manager shall be one of the senior level employees provided by the Contractor for this work effort. During any absence of the Project Manager, one Government-authorized alternate shall have full authority to act for the Contractor on matters relating to work performed under the contract. The Project Manager and all designated alternates shall be able to read, write, speak, and understand English.

The Project Manager shall be available to the CO and COR via telephone between the hours of 0800 and 1700 EST/EDT, Monday through Friday, and shall respond to a request for discussion or resolution of technical problems within 24 hours of notification.

Minimum Qualifications:

- Bachelor's degree or a minimum of 10 years of relevant experience managing contracts of similar scope and complexity across multiple locations

- Experience with successful contractor personnel transition planning and execution for three or more contractor employees

Preferred Qualifications:

- Knowledge of OCRM's risk management protocols; knowledge of SBA Loan Program Requirements for the 7(a) Loan Program; and knowledge of risk management policies, procedures, and systems.

7.2 On-Site Supervisor

Contractor shall designate an On-Site Supervisor for each SBA site on which the Contractor has placed three or more Contractor employees. The On-Site Supervisor serves as a full-time on-site supervisor who shall also hold one of the positions described in the PWS as a labor category. The On-Site Supervisor responsibilities shall be a collateral duty of individuals encumbering one of the positions. The Project Manager shall serve as the On-Site Supervisor.

The Contractor may bill for the On-Site Supervisor only to the extent such hours are included in an awarded labor category and authorized under the applicable Task Order.

The On-Site Supervisor shall serve as the primary point of contact with the Contractor's Project Manager and the SBA's COR for the specific SBA office to which the supervisor is assigned.

Responsibilities:

- Responsible for the supervision of the Contractor's personnel for the specific SBA office to which they are assigned
- Bringing Contractor employees into compliance with SBA Suitability Office requirements for employment
- Reviewing all paperwork and certifying the accuracy and 100 percent completion of the Security Package
- Certification of Contractor employee's timecards and all other attendance records
- Timely delivery of attendance, hours worked, and other payroll information to the Contractor's headquarters for invoice processing
- Tracking of leave requests and approvals
- In conjunction with the Contractor management, resolve time/wage/benefit disputes with on-site Contractor employees
- Resolve all Contractor employee disciplinary actions, including termination of employment, if required
- Reporting disciplinary actions to the Contractor's Project Manager and the SBA's CO and COR
- Maintaining all other Contractor employee records for required training and other matters that may be required by SBA specific to their respective work locations
- Working closely with the Contract Project Manager and the SBA's CO and COR to resolve all Contractor/SBA problems that may arise at their respective work location

Minimum Qualifications:

- Bachelor's degree or a minimum of 10 years of relevant experience managing contracts of similar scope and complexity across multiple locations
- Experience with successful contractor personnel transition planning and execution with three or more contractor employees

Preferred Qualifications:

- Knowledge of OCRM's risk management protocols; knowledge of SBA Loan Program Requirements for the 7(a) Loan Program; and knowledge of risk management policies, procedures, and systems.

8. General Personnel Requirements

8.1 Training

The Contractor shall furnish fully trained employees throughout the life of this contract. Additional on-site training may be necessary for Contractor employees to perform certain SBA tasks. The SBA, at its expense, shall provide training for Contractor employees who perform tasks unique to the SBA/OCRM.

8.2 Language

All Contractor employees shall be able to read, write, speak, and have a business-level understanding of the English language sufficient to perform their required tasks accurately. In order to support SBA's language access and civil rights obligations and to facilitate accurate handling of Spanish-language documentation from SBA lenders or borrowers, the Contractor shall ensure that at least one employee assigned under this contract has sufficient Spanish-language proficiency to read, write, speak, and understand business-level Spanish, when such tasks are required.

8.3 Health Requirements

Contractor Personnel who are placed in positions requiring the lifting of files, boxes of files, boxes of copy paper, supplies, and other bulky items (often weighing in excess of twenty-five pounds) shall be physically able to perform these functions, with or without reasonable accommodation in accordance with the Americans with Disabilities Act (ADA), as amended.

8.4 Personal Appearance

All personnel working under this Contract shall maintain a neat, well-groomed appearance and be dressed in a manner that is appropriate for the function being performed. Apparel must be in accordance with the local requirements of the SBA office site where the Contractor personnel are assigned for work.

8.5 Standards of Conduct

The Contractor shall not assign any individual whose employment would create an actual or apparent conflict of interest unless the Contractor has disclosed the matter to the CO in writing and the CO has provided written direction.

8.6 Bonding and Insurance

All Contractor personnel working on this contract shall be bonded and insured in accordance with usual practices at the location where the individual contract employee is working. Specifically, Contractor shall carry workers' compensation insurance on each of its employees performing work pursuant to this contract.

9. Performance Period and Location

9.1 Period of Performance

The contract period of performance shall be for a base year, with the availability of four option years. Actual dates may vary depending on completion of required acquisition processes.

For specific Task Orders issued under this contract, the period of performance shall be stated in each individual Task Order.

9.2 Locations of Performance

Contractor shall be able to provide staffing for the listed labor categories (Attachment A) in SBA offices in Washington, DC.

9.3 Hours of Operation

Contractor personnel shall perform the requested services between 0630 and 1800 EST/EDT, Monday through Friday. Contractor personnel shall work eight-hour days and a forty-hour workweek. Alternative Work Schedules, flextime, or other scheduling benefits provided to Government employees do not apply to Contractor personnel. The Government will identify required coverage hours and operational priorities, and the Contractor shall schedule its personnel to meet those requirements while maintaining contractor supervision consistent with the non-personal services nature of the contract. Work time lost by Contractor personnel may not be recovered unless authorized under the applicable Task Order.

Contractor personnel shall maintain weekly time sheets that are reviewed and approved by the Contractor's On-Site Supervisor. The Government may verify hours worked for contract administration and invoice review purposes. A copy of the approved Contractor personnel summary time sheet shall be provided to the CO or COR with the related invoice support.

Contractor personnel shall not work at SBA on Federal holidays or when the office is officially closed during unscheduled closings, such as hazardous weather conditions or SBA administrative leave, unless otherwise authorized. The Government will provide Contractor personnel with official SBA policy concerning office closure due to inclement weather or other conditions. The Contractor shall not be paid for time not worked unless payment is otherwise authorized under the contract.

9.4 Contact Hours and Recognized Federal Holidays

The Contractor understands that the ceiling price in each Task Order is a not-to-exceed amount based on fully loaded labor-hour rates and level of effort. The Government shall be responsible only for paying the Contractor for direct labor hours performed and accepted under the applicable Task Order at the fully loaded labor-hour rate for the applicable labor category. The Government will not be liable for hours not scheduled in advance when Contractor employees cannot work, such as early dismissal of Federal employees and any special time-off given to Federal employees for any reason.

Contractor employees shall not work any day or any time the Government office is closed for any reason. Contractor employees shall not work on Federal Government Holidays, including the following:

- New Year's Day
- Martin Luther King Jr.'s Birthday
- Washington's Birthday
- Memorial Day
- Juneteenth National Independence Day

- Independence Day
- Labor Day
- Columbus Day
- Veterans Day
- Thanksgiving Day
- Christmas Day

9.5 Overtime and Additional Hours

Additional hours worked beyond the normal forty hours within the same workweek are considered overtime. Overtime is not a normal practice under this contract. Contractor personnel shall not perform overtime unless authorized in advance in writing by the CO, or by another Government official expressly delegated such authority in writing by the CO.

Any authorized overtime shall be billed and paid in accordance with the contract's pricing terms and applicable labor-hour rates.

10. Specific Tasks to be Performed

The Contractor shall perform the following tasks in accordance with the performance standards established in Section 12 of this PWS:

Task One: Each Task Order will state the Labor Categories and number of hours to be worked during the performance period of the Task Order. The Task Order will also state the ceiling price, based on the Contractor's fully loaded labor-hour rate. The ceiling price will be a not-to-exceed amount, based on actual contract hours of Contractor's employees. Payment shall be computed by multiplying the appropriate hourly rates by the number of direct labor hours performed, in accordance with FAR 52.232-7.

Task Orders will be issued solely on a labor-hours basis, consistent with Section 4.1.

Task Two: For each Task Order, the Contractor shall submit accurate and complete invoices in accordance with Contract instructions and no more often than monthly.

Task Three: Twice-monthly reports shall be submitted to the COR in accordance with this PWS.

Task Four: Monthly Status Reports shall be submitted to the COR in accordance with this PWS.

Task Five: Monthly Burn Rate Reports shall be submitted to the COR in accordance with this PWS.

Task Six: Contractor shall submit required security documents and information to the COR for its employees and in accordance with this PWS.

Task Seven: Throughout the life of this Contract, Contractor shall provide a Project Manager who fulfills Contract duties as stated herein.

Task Eight: Contractor shall provide supervision for its employees as required in this PWS.

Task Nine: Contractor shall provide performance metrics, as defined in the PWS or Task Order PWS, in a timely and complete fashion.

11. Deliverables and Reporting Requirements

11.1 Contract Employee Report

The Contractor shall provide a twice-monthly report of Contractor employees assigned to the SBA's Office of Credit Risk Management. The report should be provided electronically to the SBA COR on the 1st and 16th day of each month. At a minimum, the report shall contain all additions and deletions of employees by name, position description, date of employment/termination, SBA office assigned and wage rate category.

11.2 Monthly Invoices

The contractor shall invoice no more often than once per month. Each invoice shall be submitted in accordance with the invoice instructions identified in the contract or applicable Task Order. At a minimum, each invoice shall include the employee's name, position description, wage rate, number of hours worked, total amount billed per employee, and total amount billed. Each invoice shall also include the contract number, Task Order number, and associated requisition number for the Task Order.

11.3 Monthly Status Report

The Contractor shall provide a monthly status report summarizing activities completed, activities delayed, problem areas determined, and problems resolved. The report should provide a general summary of the Contractor's work for the month. The report shall be submitted to the SBA COR within 15 calendar days following the last day of the month reported.

The monthly status report shall include:

- A clear and complete account of the work performed on each task
- Notification of any changes in key personnel associated with the contract
- Projected schedule of the work to be accomplished during the next reporting period and until contract completion
- Description of the approach taken, progress in achieving contract objectives, and estimate of percentage of technical work completed
- Description of any problems encountered or anticipated that will affect the completion of the contract within the time and fiscal constraints set forth in the contract, together with recommended solutions, or a statement that no problems were encountered
- Summary of any problems or concerns requiring U.S. Government guidance or assistance

11.4 Monthly Burn Rate Report

The Contractor shall provide a monthly burn rate report summarizing the remaining funds for all active Task Orders. At a minimum, the report shall identify each active Task Order, its corresponding requisition number, period of performance, funded amount, billed amount to date, remaining balance, current burn rate, projected hours remaining, and any projected funding shortfall or surplus at the end of the performance period. The report shall also include a comments section that details any activity for each Task Order that might affect the burn rate or overall funds remaining. The report shall be submitted to the SBA COR within 10 calendar days following the last day of the month reported.

11.5 Performance Metrics

The contractor shall collect metrics data as outlined and, in the format provided by SBA's Office of Credit Risk Management. SBA will collect data related to actions completed by contract personnel (input, output, and in process). Metrics requests may change during the duration of the contract. SBA will provide these changes in data requests 30 days prior to collection. Any major changes in performance metrics shall be stated in the relevant Task Order.

12. Performance Standards and Quality Assurance

12.1 Performance Standards for All Task Orders

Performance Standard	Acceptable Quality Level (AQL)	Method of Monitoring
Contractor conforms to Contract and Task Order PWS, and to the attached Quality Assurance Surveillance Plan (QASP)	Acceptable quality levels are stated in the attached QASP	Direct SBA contact through the SBA COR assigned to this contract and through SBA personnel in the workplaces

Contractor performance will be monitored in accordance with the attached QASP (Appendix B). Any Government remedies for nonconforming performance shall be exercised in accordance with the contract and applicable law.

12.2 Quality Assurance Plan

The Contractor shall develop, implement, and execute a detailed Quality Assurance Plan (QAP) that provides for inspection of all services and deliverables to verify conformance to acceptability standards specified in the Task Order. The Contractor shall submit a draft QAP with its proposal and shall submit an initial post-award QAP to the COR via email no later than seven calendar days after the post-award conference.

The QAP is a living document and shall be revised by the Contractor as conditions change. The QAP shall include the techniques to be employed for producing and validating services and deliverables conforming to the acceptable quality standards in the contract, and a description of the quality control mechanisms that will be used to ensure the Government receives quality services. Nothing in this section authorizes the COR to change the contract scope, price, terms, or schedule.

Within 30 calendar days after contract award, the Contractor shall provide an updated final QAP incorporating any Government comments and providing for complete quality control for all reports, letters, and agreements to be issued. The QAP shall include a defined process and personnel identification by title. The QAP shall also include a Communication Plan to ensure effective communication between SBA Personnel and Contract staff, to ensure the objectives of the contract are being met.

The QAP shall address the following concerns:

Development and Implementation of:

- Procedures to identify and bring to the attention of SBA any potential conflicts of interest that exist as a result of providing risk oversight services
- Information control policy that includes confidentiality requirements

Confidentiality Obligations:

The Contractor is obligated by the terms of its contract (including any corresponding confidentiality agreement) to:

1. Safeguard the Confidential Information as set forth in this Agreement
2. Return, or certify to the SBA the destruction of, all copies of the Confidential Information at the conclusion of its engagement with the SBA
3. Not use the Confidential Information for any purpose other than in connection with its engagement with the SBA
4. Not disclose the Confidential Information outside of the Contractor without the prior written approval of the SBA

13. Government Furnished Property and Services

13.1 Government Furnished Property

The Government will furnish the following:

- Workspace as assigned
- Personal computers
- Telephones
- Other equipment or supplies as needed to properly perform job tasks

13.2 Use of Government Property

All equipment, furniture, and supplies furnished by the SBA shall be used by the Contractor only in support of the requirements of this PWS. Use of privately owned computers at SBA offices is prohibited without prior written approval from the CO or from another Government official expressly delegated such authority in writing by the CO.

14. Safety and Security Requirements

14.1 Personal Identity Verification of Contractor Personnel

Contractor shall comply with Agency personal identity verification (PIV) procedures (identified in the contract attachment to the clauses) that implement Homeland Security Presidential Directive-12 (HSPD-12), Office of Management and Budget (OMB) guidance M-05-24, and Federal Information Processing Standards Publication (FIPS PUB) Number 201.

Contractor shall insert this clause in all subcontracts when the subcontractor is required to have physical access to a federally-controlled facility and/or access to a federally-controlled information system.

14.2 Contractor Personnel Security Clearance

Unless otherwise specified, all Contractor personnel shall submit to the COR, one (1) fully completed Security Package consisting of the following items and SBA forms:

- OF306, Declaration for Federal Employment
- SBA Form 2044, U.S. Small Business Administration Credit Report Release for Employment
- Qualifications
- Citizenship documentation for foreign nationals and/or naturalized citizens

SBA COR will complete the following for the Security Package:

- Contractor E-QIP Checklist
- OPM Position Risk Designation Summary
- Digital SBA Form 1228, Computer Access Clearance/Security Form
- Job Description

Except as otherwise authorized in writing under SBA security procedures, Contractor personnel shall not report for duty until the required suitability or access determination has been favorably adjudicated or temporary access has been approved by the appropriate SBA security authority. If the COR receives an unsuitable report on any of Contractor's on-site staff after processing the Security Package, or if the COR finds any of Contractor's on-site staff to be unsuitable or unfit for assignment, the Contractor shall be advised that the individual cannot continue to work or be assigned to work under the Contract. The Contractor shall immediately remove any such individual from SBA premises.

14.3 Temporary Security Clearance

SBA shall have, and exercise full and complete control over granting, denying, withholding, or terminating clearance for Contractor personnel. The SBA's Suitability Office may, as it deems appropriate, authorize and grant temporary clearance to Contractor personnel upon request from the SBA program office. The COR's role is limited to initiating requests and coordinating with the Suitability Office. The granting of temporary clearance to any Contractor personnel shall not be considered assurance that full clearance will follow, and the granting of either temporary or full clearance shall in no way prevent, preclude, or bar the withdrawal or termination of any such clearance by the SBA.

15. Contract Personnel Conduct

The CO may direct the Contractor to remove an individual from duty for misconduct, delinquency, or other contractually supportable cause, including, but not limited to, the behaviors listed below. The COR may recommend such removal to the CO. The Contractor shall promptly remove any such employee upon written direction from the CO, or as otherwise authorized by contract terms or urgent security procedures.

15.1 Neglect of Duty

The following acts or omissions shall be sufficient cause for the dismissal of any Contractor on-site personnel while on duty: improper use of computer; sleeping; smoking on premises; eating at a work desk resulting in SBA property damage or damage of files; reading unauthorized materials; drinking alcoholic beverages; loitering; use of offensive language; unreasonable delay; failure to carry out assigned tasks; conducting personal affairs; unauthorized presence at SBA during non-working hours; carrying weapons or any other device that can endanger the safety of others; appearing inattentive to duties; refusing to render assistance; and being uncooperative in upholding the integrity of the SBA security program.

15.2 Disorderly Conduct

Use of abusive or offensive language, quarrelling, intimidation by words or actions, fighting or participation in disruptive activities that interfere with normal and efficient operation shall not be tolerated and may be cause for immediate removal of Contractor's employee.

15.3 Criminal Acts

Theft, vandalism, immoral conduct, and involvement in any criminal activity shall not be tolerated and may be cause for immediate removal of Contractor's employee.

15.4 Involvement with Illegal or Controlled Substances

Selling, consuming, or being under the influence of intoxicants, drugs, or substances that produce similar effects, while on duty, shall not be tolerated, and may be cause for immediate removal of Contractor's employee.

15.5 Misuse of SBA Property

Unauthorized or improper use of SBA communications equipment, Personal Computer, computer networks, or property shall not be tolerated, and may be cause for immediate removal of Contractor's employee.

15.6 Breach of Confidence

Contractor personnel assigned to work on an SBA site will be required to sign a Confidentiality Agreement. Contractor personnel may deal with sensitive, personal, and confidential information in the performance of their duties. Contractor personnel shall not discuss the information they obtain in the course of duty with other individuals (including SBA employees, other contractors, and the public).

15.7 Derogatory Information

Derogatory information received as a result of a background investigation conducted by SBA may result in immediate dismissal of Contractor's employee from this contract. Derogatory information includes:

- *Falsification of Information* - Falsification of information entered on suitability, background, or employment forms
- *Conviction* - Conviction of a felony, crime of violence or serious misdemeanor
- *Arrests* - Possession of an arrest record for continuing offenses

16. Safety

16.1 Work Methods

All work performed in delivering the services specified in this contract shall comply with applicable federal, state, and local safety regulations.

16.2 Accident Reporting

The Contractor shall report all accidents to the SBA OCRM Director, CO, and the COR within 24 hours of their occurrence. The COR, or designated representative, may require the Contractor to complete certain forms to document accidents. The Contractor shall complete these forms promptly, at no additional cost to the SBA.

17. Physical Security

17.1 Property, Equipment and Supplies

Contractor personnel shall be responsible for safeguarding all SBA property, equipment, and supplies in his/her work area. At the close of each work period, facilities and equipment shall be secured.

17.2 SBA Badges, Access and Control and Keys

Contractor personnel must obtain a special SBA Identification badge for entry into their assigned office. The badge must be worn by all Contractor employees at the location for which they are assigned and be visibly displayed while on premises at all times.

Contractor shall, in cooperation with the SBA office, establish and implement methods of ensuring that all keys and access badges issued to Contractor employees by the SBA are not lost or misplaced. No keys or badges issued to the Contractor may be duplicated.

The SBA may require the Contractor to replace, re-key, or reimburse the SBA for replacement of locks or re-keying resulting from the loss of keys by Contractor personnel, in accordance with the contract and applicable law. In the event a master key is lost or duplicated, the Government may pursue recovery of resulting costs in accordance with the contract and applicable law.

The Contractor shall immediately report the occurrence of a lost key or access card/badge to the CO, COR, and the SBA Office/Center Director.

It is the responsibility of the Contractor to prohibit the use of keys and access card/badges issued by the SBA by any persons other than the Contractor's employees. It is also the responsibility of the Contractor to prohibit the opening of locked areas by the Contractor's employees to permit the entrance of persons other than the Contractor's employees engaged in the performance of assigned work in those areas.

18. Contracting Officer's Authority

The CO shall be the only individual authorized to direct and/or redirect the efforts, or in any way amend, any of the items of this contract.

19. Functions and Limitations of the Contracting Officer's Representative (COR)

The designated COR will represent the CO in the administration of technical details within the scope of this contract. Guidance and possibly surveillance will be furnished by the CO when it is deemed to be necessary and proper.

The COR is not otherwise authorized to make any representation or commitments of any kind on behalf of the CO or the Government. Furthermore, neither the COR nor third parties have the authority to alter the Contractor's obligations or change the specifications in the contract. Changes must be issued in writing and signed by the CO.

20. Travel Requirements

Travel is not anticipated. Contractor employees are responsible for commuting to and from the workplace at their own expense. If special travel is required, it must be authorized in advance in writing by the CO, or by another Government official expressly delegated such authority in writing by the CO. Government travel rules and regulations shall apply to any authorized travel, as applicable.

21. Non-Personal Services Statement

Contractor employees performing services under this requirement will be controlled and supervised at all times by management personnel of the Contractor. Contractor management will ensure that its employees properly comply with the performance work standards, and that they perform their duties independently and without the supervision of Government personnel.

The tasks, duties, and responsibilities set forth in the requirement may not be interpreted or implemented in any manner that results in any Contractor employee creating or modifying Federal policy, obligating funds of the Government, overseeing the work of Federal employees, providing direct personal services to any Federal employee or otherwise violating Government prohibitions. Inherently Governmental functions are not to be assigned to or performed by Contractor employees. The Government will perform inspection and acceptance of completed work.

22. Organizational Conflict of Interest (OCI)

In accordance with Federal Acquisition Regulation (FAR) Subpart 9.5, the Contractor shall identify and disclose to the Contracting Officer any actual or potential organizational conflicts of interest (OCI) that may arise during performance of this contract. Given the sensitive, oversight-related nature of the services, the Contractor shall identify and disclose any actual or potential organizational conflict of interest (OCI) arising from work performed under this contract. The CO, in consultation with agency counsel, will determine whether an OCI exists and whether avoidance, mitigation, neutralization, or exclusion of personnel is required.

The Contractor shall submit an initial OCI disclosure statement and mitigation plan with its proposal and shall update the disclosure within five (5) business days of any change in circumstances that may create a new or modified OCI. The Contracting Officer, in coordination with the Contracting Officer's Representative (COR) and agency legal counsel, retains the authority to determine whether an OCI exists and to direct avoidance, mitigation, or neutralization measures, including reassignment of work or exclusion of personnel.

23. Privacy Act and PII Training

Contractor personnel performing under this contract will handle personally identifiable information (PII) and sensitive but unclassified SBA information, including information from SBA systems of records. The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a), OMB Circular A-130, and FAR 52.224-3, Privacy Training.

All covered Contractor employees shall complete initial privacy training prior to being granted access to any SBA system of records or PII and shall complete annual refresher training thereafter. The Contractor shall maintain documentation of training completion and shall provide such documentation to the COR upon request. No Contractor employee shall be permitted access to PII or a system of records until the privacy training requirement has been satisfied.

24. Section 508 Accessibility Compliance

All electronic and information technology (EIT) deliverables produced under this contract, including reports, dashboards, spreadsheets, presentations, and web-based content, shall comply with Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794d), and the accessibility standards published at 36 CFR Part 1194 (the Revised 508 Standards). Where any deliverable cannot meet a specific 508 requirement, the Contractor shall document the exception and provide an accessible alternative acceptable to the COR.

25. Prohibition on Covered Telecommunications Equipment and Services

The Contractor shall comply with Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) as implemented in FAR 52.204-24, 52.204-25, and 52.204-26. The Contractor shall not provide or use any "covered telecommunications equipment or services" (as defined in FAR 52.204-25) as a substantial or essential component of any system, or as critical technology, in the performance of this contract. The Contractor shall notify the Contracting Officer within one (1) business day of identifying any such equipment or service in its supply chain and shall submit a mitigation plan within ten (10) business days. This prohibition shall flow down to all subcontractors at any tier.

26. SBA Contact Personnel

Appendix A

POSITION DESCRIPTIONS

OFFICE OF CREDIT RISK MANAGEMENT

STAFF AUGMENTATION - SUPPORT SERVICES

OVERALL POTENTIAL PERSONNEL NEEDS:

Positions:

- Administrative Assistant
- Financial Analyst
- Program Analyst I
- Program Analyst II
- Program Analyst III
- On Site Supervisor

POSITION DESCRIPTION: Administrative Assistant

Summary

Under minimal supervision, the Administrative Assistant performs a full range of complex clerical, administrative, and secretarial duties to support senior and professional staff. The position requires independent judgment, strong organizational skills, attention to detail, and the ability to manage multiple tasks and priorities efficiently. Work involves substantial contact with internal departments, external organizations, and the public, requiring a high level of professionalism and customer service.

Duties and Responsibilities

- Performs the full range of administrative support functions typically associated with GS-5 administrative positions.
- Provides comprehensive administrative support, including transcription, scheduling, document preparation, and data management.
- Assists customers and employees with routine to complex inquiries, transactions, and issues; ensures accurate information and resolution of problems.
- Performs complex research, processes specialized documents, and assists with regulatory or procedural compliance matters.

- Uses computers and software applications (e.g., word processing, spreadsheets, databases, and presentation software) to create, edit, and maintain correspondence, reports, newsletters, and other professional documents.
- Composes and reviews correspondence, reports, and memoranda with independent judgment regarding content, accuracy, and completeness.
- Develops, improves, and maintains office systems, forms, and filing structures to ensure accessibility and efficiency.
- Handles routine bookkeeping and reconciliatory tasks; may assist with budget tracking or procurement processes.
- Coordinates and schedules meetings, appointments, and events; reserves meeting spaces and prepares materials as needed.
- Attends meetings and produces accurate minutes or summaries as required.
- Manages incoming and outgoing mail, including electronic correspondence; maintains email distribution lists.
- Maintains adequate office supplies and ensures forms and materials are stocked.
- Provides front-line customer service by greeting visitors, answering telephone inquiries, and offering assistance in a professional and courteous manner.
- Collaborates with other offices, departments, and external organizations to obtain, exchange, or verify information.
- Assists in preparing and arranging the publication of meetings, agendas, and official notices when required.
- Reviews all work products to ensure the highest level of accuracy, completeness, and quality.
- Performs other duties of a similar or related nature as required or assigned.

Recommended Qualifications

Education

- High school diploma or equivalent required.
- Associate's degree in business administration, office administration, or a related field preferred.

Experience

- At least two years of progressively responsible clerical or administrative support experience, preferably in a professional office environment.
- Experience supporting managers, team leads, or professional staff with scheduling, correspondence, and records management.
- Prior experience in a government, financial services, legal, or regulated environment preferred (e.g., familiarity with formal procedures, records, and compliance-driven documentation).

Knowledge, Skills, and Abilities

- Strong proficiency with office productivity software, including:
    - Word processing (e.g., Microsoft Word) for formatting complex documents, tables, and mail merges.
    - Spreadsheets (e.g., Microsoft Excel) for basic calculations, lists, and tracking logs.
    - Presentation software (e.g., PowerPoint) for preparing slides and briefing materials.
    - Email and calendaring tools (e.g., Outlook) for managing schedules, meetings, and correspondence.
- Excellent written and verbal communication skills, including:
    - Correct grammar, spelling, and punctuation.
    - Ability to draft, proofread, and edit professional correspondence, reports, and memoranda.
- Strong organizational and time-management skills:
    - Proven ability to manage multiple tasks and deadlines simultaneously.
    - Ability to prioritize work with minimal supervision and adjust to changing priorities.
- Demonstrated attention to detail and accuracy in data entry, document preparation, and recordkeeping.
- Customer service and interpersonal skills:
    - Ability to interact professionally with internal staff, external stakeholders, and the public.
    - Ability to handle inquiries, resolve routine issues, and escalate matters appropriately.
- Ability to exercise sound judgment and maintain confidentiality when handling sensitive or proprietary information.
- Ability to learn and apply agency or organizational policies, procedures, and workflows.
- Basic understanding of bookkeeping concepts and comfort working with financial or budget-related information (e.g., tracking expenditures, reconciling simple logs).
- Ability to work both independently and as part of a team, with a cooperative, solutions-oriented approach.

Other Requirements

- Ability to obtain and maintain any required background check, suitability determination, or security clearance associated with the position.
- Reliable attendance and punctuality to support office operations and scheduled meetings.
- Flexibility to adapt to new systems, processes, and technology as the office environment evolves.

POSITION DESCRIPTION: Financial Analyst

Summary

Serves as Financial Analyst and technical advisor. Independently performs a variety of evaluations and analyses regarding the eligibility and qualifications of SBA lenders. Evaluates lender performance on an ongoing basis to ensure risks to SBA loan portfolio are reflected to SBA management accurately, appropriately and in a timely manner. Provides operational guidance and assistance to stakeholders (both internal and external). Provides guidance and direction to SBA Office of Credit Risk Management regarding the Agency's policies and procedures relative to the Delegated Authority process and Desktop Reviews. Develops and recommends to the Supervisory Financial Analyst procedural and policy changes and enhancements. Provides program oversight and administers management control systems and processes to ensure participants adhere to established Agency policy and procedures. This position is to conduct lender oversight activities for all the Agency's Lending partners and portfolio; and carry out policy, program and portfolio analysis of SBA loan program portfolios.

Duties and Responsibilities

- Formulates and recommends policies and procedures with respect to OCRM's Delegated Authority and Desktop Reviews.

- Plans, coordinates, and initiates activities to complete the processing of Delegated Lender analysis and Desktop Reviews.

- Develops evaluations and analyses of a Delegated Lender's eligibility to obtain or retain Delegated Authority through the assessment of qualitative and quantitative factors.

- Conducts financial and statistical analyses and evaluations of SBA Lender performance and develops work papers and reports detailing the results of those analyses.

- Identifies operational weaknesses and deficiencies in SBA's delivery of Delegated Authority and Desktop Reviews, formulates and recommends policies and procedures to improve those weaknesses, and implements enhancements to increase the program's efficiency and effectiveness.

- The Financial Analyst may also be assigned other administrative duties and responsibilities or assist with other credit risk management functions within the Office of Capital Access.

- Comprehensive knowledge of concepts, principles, theories, and practices of financial structure, credit risk, business management operations, liquidation issues, and SBA lending policies and procedures sufficient to serve as an expert in financing and in development of SOPs, procedures, and other types of formal instruction.

- The Financial Analyst must have a practical knowledge of accounting and computer systems.

- The Financial Analyst must be skilled in identifying the data needed for program development, implementation, direction, management, monitoring, and evaluation. In addition to identifying data, the Financial Analyst must be able to develop, organize, collate, and summarize that data into succinct, accurate, and effective reports and charts for management oversight and program, lender, and SBA office evaluation purposes.

- Ability to make oral and written presentations clearly, concisely, and effectively.

- Develops work products, recommendations, and suggestions that are relied upon as technically correct. Complicated work is reviewed for agreement with overall policies, attainment of objectives, and due dates.

- Use resourcefulness and experienced judgment in devising new techniques, developing methods, or significantly departing from established practices, as required by unique conditions and the broad range of situations, practices, and operations. Substantial deviation from precedents is encouraged to develop more effective methods.

- Develop standards, methods, and procedures with respect to new programs and legislation affecting established programs.

- Analyze and isolate variables to identify individual factors and to interrelate and correlate financial and accounting variables and processes, as well as the underlying financial principles, to plan, develop, execute, and evaluate lender program requirements and to draw correct conclusions from the data evaluated. Frequently, the analyst must extend or adapt existing methodology due to shifting variables and the lack of specific guidance or precedent.

- Provide expert technical experience and assistance in the conduct of special analyses and reviews of 7(a) Lender portfolios and lender oversight programs including delegation of authority. Evaluates 7(a) loan portfolios on an ongoing basis to ensure risks to the SBA loan portfolio are reflected accurately and appropriately.

- Prepare analyses to identify current and emerging risks to SBA's 7(a) loan portfolio and prepare reports for senior management to help understand risk. The Financial Analyst is responsible for recommending delegation of authority, portfolio of lenders monitoring, and oversight, including scheduling lender renewals, reviews, analyzing results, identifying required actions and following up to ensure completion.

- Prior to issuance, the Financial Analyst evaluates reviews prepared by other contractor staff for quality assurance and regulatory compliance for oversight, monitoring, and supervisory purposes. The Financial Analyst also works with the On-Site Supervisor/Project Manager to ensure the monthly, quarterly, and annual deliverables are received by SBA in a timely fashion; assess the impact of public actions taken by federal and state regulators, analyzes mergers and acquisitions for guaranty transfer potential; and reviews/revises the monthly and quarterly reports. The Financial Analyst ensures lenders 7(a) related activities comply with rules prescribed under the standard operating procedures for the 7(a) Loan Program.

Recommended Qualifications

Education

- Bachelor's degree in finance, accounting, economics, business administration, or a closely related field.

- Master's degree (e.g., MBA, MS in Finance, MS in Economics, or related field) preferred, especially for higher-level.

- Relevant professional certifications are desirable but not required (e.g., CFA, FRM, CPA, or similar).

Experience

- Typically, one to two years of specialized experience performing financial, credit, or portfolio analysis in a banking, regulatory, government, or financial-services environment.

- Typically three or more years of progressively responsible specialized experience performing complex financial and risk analyses, credit or portfolio reviews, or lender oversight, including independent development of recommendations for policy, procedures, or risk mitigation.

Experience that demonstrates:

- Evaluating commercial or small business creditworthiness, financial condition, and repayment capacity.
- Analyzing loan or investment portfolios using both quantitative metrics (e.g., delinquency, loss, concentration, risk ratings) and qualitative factors (e.g., management quality, control environment, compliance culture).
- Working with or within regulated financial institutions or oversight bodies (e.g., bank supervision, credit review, internal audit, or risk management functions).
- Preparing written analytical work products (memoranda, reports, briefing materials) for management or oversight bodies that are relied upon for decisions.
- Preferred: experience with SBA 7(a) and/or 504 programs, delegated authority programs, or similar government guaranteed lending programs.

Knowledge, Skills, and Abilities

Technical knowledge

- Comprehensive knowledge of:
  - Financial statement analysis (balance sheet, income statement, cash flow, key ratios).
  - Credit risk concepts (e.g., probability of default, loss given default, risk rating systems, collateral analysis).
  - Commercial lending practices and underwriting standards, particularly for small business credit.
  - Portfolio risk management principles, including concentration risk, trends analysis, and early-warning indicators.
- Working knowledge of:
  - Accounting principles relevant to loan and portfolio analysis (e.g., non-accrual, charge-offs, reserves/allowance, fair value concepts).
  - Capital, liquidity, and asset quality concepts used in financial institution supervision.
  - Regulatory environments governing lenders (e.g. bank regulators, prudential standards), including how enforcement actions and supervisory findings affect lender risk profiles.

- Strong familiarity with or ability to quickly learn:
    - SBA Loan Program Requirements for the 7(a) Loan Program.
    - SBA information systems used in lender risk-rating, credit-risk management, or data analysis (e.g., Lender Portal, CAFS, or similar platforms).

Analytical and quantitative skills

- Demonstrated ability to:
    - Perform complex quantitative analyses of lender portfolios and individual lenders, including trend analysis, segmentation, and benchmarking.
    - Develop evaluations and determinations of lender eligibility and continuing qualification for delegated authority using both qualitative and quantitative factors.
    - Analyze and correlate multiple financial and operational variables to isolate drivers of risk and performance.
    - Extend or adapt existing analytical methods to new data, shifting conditions, or incomplete guidance.
- Proficient in:
    - Spreadsheet and data-analysis tools (e.g., Excel with advanced functions such as pivot tables, lookup functions, conditional formulas, and basic statistical functions).
    - Data visualization and reporting (charts, tables, and exhibits used in management presentations).

Policy, program, and oversight skills

- Ability to:
    - Interpret and apply complex policies, SOPs, regulations, and guidance to lender-oversight and delegated-authority decisions.
    - Identify gaps, inconsistencies, or inefficiencies in existing policies or procedures and recommend improvements.
    - Develop or refine standards, methods, and procedures for lender oversight, delegated authority, and desktop-review processes.
    - Provide operational guidance and technical assistance to internal and external stakeholders on policy interpretation, procedural requirements, and risk-management expectations.
    - Review contractor-prepared examination or review reports for completeness, accuracy, and compliance with applicable standards.

Communication skills

- Excellent written communication skills, including:
    - Drafting clear, well-structured analytical memoranda, reports, workpapers, and briefing materials for senior management.
    - Summarizing complex financial and risk concepts in plain language for non-specialist audiences.
- Strong oral communication skills:
    - Ability to present analytical findings, risk assessments, and recommendations clearly and concisely to management and stakeholders.
    - Ability to discuss complex issues with lenders, contractors, and internal staff in a professional and constructive manner.
    - Ability to develop work products and recommendations that are relied upon as technically correct and used in decision-making.

Judgment, independence, and collaboration

- Demonstrated ability to:
- Exercise sound professional judgment in evaluating risk, interpreting data, and recommending actions, often with incomplete or evolving information.
- Work independently on complex assignments with minimal supervision, including planning, executing, and completing analytical projects.
- Use resourcefulness and experienced judgment to devise new techniques or significantly depart from established practices where appropriate to improve results.

Strong collaboration skills:

- Ability to work effectively with supervisory analysts, program managers, legal counsel, and other stakeholders in developing or implementing oversight strategies.
- Ability to coordinate and review the work of contractors and integrate their deliverables into SBA's oversight processes.

Other Requirements

- Ability to obtain and maintain any required background investigation, suitability determination, or security clearance applicable to access SBA systems and sensitive financial information.
- High standards of integrity and discretion in handling confidential lender and borrower information.
- Willingness to engage in continuous learning to stay current on SBA policies, financial-sector developments, and risk-management practices.

POSITION DESCRIPTION: Program Analyst I, Program Analyst II, and Program Analyst III

Summary

Serves as a Program Analyst in the Office of Capital Access (OCA), performing a range of analytical and project support activities that help assess and improve the effectiveness of SBA capital access programs. Under direction, the Program Analyst coordinates projects; gathers, organizes, and analyzes quantitative and qualitative data; and conducts evaluations and cost-benefit analyses to inform program management and oversight.

The Program Analyst identifies and develops information needed to manage OCA programs, including analyzing program requirements, developing reports and dashboards, and documenting system and data needs. The incumbent prepares conclusions, presentations, and white papers, and makes recommendations that inform long-range planning, performance improvement, and oversight of SBA's capital access programs.

Duties and Responsibilities

- Identify, compile and analyze key data through a variety of planning and evaluation tools.
- Develop measurements of productivity and effectiveness through compiling matrix data and maintaining dashboards for various OCA projects.
- Assist in conducting financial reporting for various OCA lending and lender oversight programs.
- Perform management analysis to determine compliance with organizational procedures, sound management practices, and effective utilization of staff.
- Coordinate and track multiple actions required to execute assigned projects.
- Prepare and make presentations.
- Develop work papers and reports.

Recommended Qualifications

Program Analyst I

Typical Profile: Early-career analyst developing core program and data skills under moderate supervision.

Education

- Bachelor's degree in public policy, public administration, business administration, economics, finance, statistics, data analytics, or a closely related field.
- Combination of education and experience may be considered equivalent.

Experience (Specialized)

- Approximately one to two years of specialized experience related to:
    - Program or management analysis, or

        - Data analysis and reporting, or
        - Project coordination in a government, financial, or similar professional environment.
    - Experience demonstrates:
        - Assisting with data collection, basic analysis, and maintenance of spreadsheets or simple dashboards.
        - Supporting preparation of charts, tables, and sections of reports or presentations.
        - Tracking routine project actions, deadlines, and follow-ups.

Core Knowledge, Skills, and Abilities

- Basic understanding of program performance concepts (outputs, outcomes, metrics).
- Proficiency with Excel for data entry, sorting/filtering, basic formulas, and simple charts.
- Ability to learn agency systems and analytic tools.
- Ability to draft clear summaries, meeting notes, and basic report sections.
- Solid organizational skills and reliability in meeting routine deadlines.
- Ability to work as part of a team and follow established procedures, escalating issues appropriately.

Program Analyst II

Typical Profile: Mid-level analyst independently handling discrete analytic assignments and contributing substantially to program evaluation and reporting.

Education

- Bachelor's degree in public policy, public administration, business administration, economics, finance, statistics, data analytics, or a related field.
- Master's degree (MPA, MPP, MBA, MS in Applied Economics/Data Analytics, etc.) preferred but not required.

Experience (Specialized)

- Typically, two to three years of specialized experience equivalent to GS-9/10, including:
    - Program or management analysis, performance measurement, or business/data analytics; and/or
    - Coordinating and tracking complex projects or workstreams.
- Experience demonstrates:
    - Designing or refining performance metrics and maintaining dashboards or scorecards used by management.

- Conducting quantitative and qualitative analyses to assess program performance, workload, or outcomes.
- Preparing substantive analytical sections of reports, white papers, or briefings.
- Coordinating multiple concurrent projects with interdependencies and reporting status to supervisors.

Core Knowledge, Skills, and Abilities

- Strong proficiency with Excel (pivot tables, lookup functions, conditional formulas, charts, and summary statistics).
- Ability to compile, validate, and reconcile data from multiple sources.
- Working knowledge of program evaluation concepts (logic models, KPIs, outcome indicators).
- Ability to perform basic cost-benefit or cost-effectiveness analyses and explain methods and assumptions.
- Demonstrated skill in writing clear, structured analytical reports and presenting findings to non-technical audiences.
- Proven ability to manage workload with limited supervision, prioritize tasks, and meet deadlines.
- Familiarity with federal program operations, preferably capital access or lending programs, and ability to learn SBA/OCA/OCRM policies and systems quickly.

Program Analyst III

Typical Profile: Senior analyst and technical resource responsible for leading complex analyses and shaping performance/oversight insights for management.

Education

- Bachelor's degree in public policy, public administration, business administration, economics, finance, statistics, data analytics, or a related field required.
- Master's degree is preferred, particularly where the role emphasizes complex analysis, forecasting, or policy evaluation.

Experience (Specialized)

- Typically, three or more years of progressively responsible specialized experience equivalent to GS-11, including:
    - Leading or designing substantive program analyses, performance measurement frameworks, or evaluation projects.
    - Serving as an analytical lead on cross-functional or high-visibility initiatives.
    - Producing conclusions and recommendations used by senior management for planning, policy, or resource decisions.

- Experience demonstrates:
    - Independent design and execution of analytic projects (scoping, data acquisition, method selection, analysis, and presentation).
    - Building and maintaining sophisticated dashboards and analytic products relied upon by leadership.
    - Integrating financial, operational, and qualitative information to assess and improve capital access programs and oversight activities.

Core Knowledge, Skills, and Abilities

- Advanced proficiency with Excel and strong familiarity with data visualization or BI tools (e.g., more advanced dashboards) or demonstrated ability to quickly adopt such tools.
- Deep understanding of program evaluation, performance measurement, and management analysis methods.
- Ability to design measurement strategies for new or evolving programs, including defining metrics, baselines, and targets.
- Strong ability to synthesize complex analyses into concise, actionable findings and recommendations for senior leadership.
- Demonstrated skill in drafting high-impact decision memos, white papers, and presentations.
- Proven ability to lead or coordinate analytic efforts across offices, mentor junior analysts, and serve as an internal consultant on metrics and analysis.
- Ability to identify emerging risks, data gaps, or performance issues and proactively recommend changes to reporting, metrics, or processes to enhance program effectiveness.

POSITION DESCRIPTION: On-Site Supervisor

Summary

Contractor shall designate an On-Site Supervisor for each SBA site in which the Contractor has placed three or more Contractor employees. The On-Site Supervisor serves as a full-time, on-site supervisor who shall also hold one of the positions described in the SOW as a labor category. The On-Site Supervisor responsibilities shall be a collateral duty of individuals encumbering one of the positions. If a Contractor supplies less than three employees to an SBA office, then the Project Manager shall serve as the On-Site Supervisor.

The On-site Supervisor shall serve as the primary point of contact with the Contractor's Project Manager and the SBA's COR for the specific SBA office to which they are assigned.

Duties and Responsibilities

- The On-site Supervisor shall be responsible for the supervision of the Contractor's personnel for the specific SBA office to which they are assigned. This task includes all responsibilities of bringing Contractor employees into compliance with SBA Suitability Office requirements for employment; reviewing all paperwork and certifying the accuracy and 100 percent completion of the Security Package; and follow-up where needed.

- The On-site Supervisor is responsible for certification of Contractor employee's timecards and all other attendance records; the timely delivery of attendance, hours worked, and other payroll information to the Contractor's headquarters for invoice processing; the tracking of leave requests and approvals; and in conjunction with the Contractor management resolve time/wage/benefit disputes with on-site Contractor employees.

- The On-site supervisor must resolve all Contractor employee disciplinary actions, including termination of employment, if required. The individual is responsible for reporting disciplinary actions to the Contractor's Project Manager and the SBA's contract COR.

- The On-site supervisor is to maintain all other Contractor employee records for required training and other matters that may be required by SBA specific to their respective work locations. The individual works closely with the Contract Project Manager and the Contract COR to resolve all Contractor/SBA problems that may arise at their respective work location.

The On-site Supervisor shall possess the following education and experience:

- Bachelor's degree or a minimum of 10 years of relevant experience managing contracts of similar scope and complexity across multiple locations.
- Experience with successful contractor personnel transition planning and execution.

Other qualifications: Knowledge of SBA loan programs, risk management policies and procedures and systems is preferred.

APPENDIX B

QUALITY ASSURANCE SURVEILLANCE PLAN (QASP)

Risk Management, Financial Analysis, and Administrative Support Services

1. Purpose

The purpose of this Quality Assurance Surveillance Plan (QASP) is to describe the systematic methods the Government will use to monitor, evaluate, and document the Contractor's performance under the Risk Management, Financial Analysis, and Administrative Support Services contract and related Task Orders. The QASP is intended to ensure that performance is consistent with the Performance Work Statement (PWS) requirements and with applicable performance-based acquisition principles in FAR Subpart 37.6[1].

This QASP describes the Government's surveillance approach for assessing Contractor performance under the PWS and applicable Task Orders. The QASP does not alter the contract terms and does not create independent remedies apart from those provided by the contract and applicable law.

2. Scope and Applicability

This QASP applies to all services performed under:

The base IDIQ contract [INSERT CONTRACT NUMBER]

- All individual Task Orders issued under the IDIQ contract
- All contractor personnel performing services at SBA facilities or on behalf of SBA

The QASP covers all labor categories, deliverables, and performance requirements specified in the PWS and individual Task Orders.

3. Government Roles and Responsibilities

3.1 Contracting Officer (CO)

The Contracting Officer has overall responsibility for contract administration and is the only official authorized to:

- Modify the contract or Task Orders
- Issue formal directives to the Contractor
- Make final decisions on contractual matters, including remedies for poor performance
- Authorize changes to performance requirements or deliverables
- Approve or disapprove corrective action plans
- Initiate cure notices, show cause notices, or termination actions

The CO may delegate certain technical and administrative monitoring responsibilities to the COR but retains ultimate authority over all contractual matters.

3.2 Contracting Officer's Representative (COR)

The COR serves as the primary technical representative for the CO for day-to-day surveillance of services and deliverables. The COR's responsibilities include:

- Performing surveillance activities described in this QASP
- Documenting contractor performance against established standards
- Reviewing and accepting or rejecting deliverables
- Providing performance information and recommendations to the CO
- Serving as primary point of contact for the Contractor's Project Manager on technical matters
- Coordinating with the OCRM Director or designee on operational issues
- Maintaining official performance files and documentation
- Identifying performance deficiencies and working with the Contractor to implement corrective actions
- Verifying contractor time sheets and attendance records
- Monitoring compliance with security and safety requirements

The COR is not authorized to:

- Make commitments or changes that affect price, quality, quantity, delivery, or other terms and conditions of the contract
- Direct the Contractor to perform work outside the scope of the contract
- Approve invoices for payment (though the COR verifies hours and services)

3.3 OCRM Director or Designee

The OCRM Director or designee provides operational input within the bounds of the PWS and this QASP and:

- Confirms hours worked and work schedules
- Provides day-to-day technical guidance on lender oversight activities
- Assesses overall service adequacy and quality
- Determines start and end times for contractor personnel within authorized hours
- Provides feedback to the COR on contractor performance
- Verifies contractor personnel time sheets
- Advises on operational priorities and workload distribution

4. Contractor Roles and Responsibilities

4.1 Project Manager (PM)

The Contractor's Project Manager serves as the single point of contact for the CO and COR and is responsible for:

- Overall contract performance and compliance
- Implementing the Contractor's internal Quality Assurance Plan (QAP)
- Ensuring staff qualifications, staffing levels, and deliverables comply with contract requirements

- Responding to CO and COR inquiries within 24 hours
- Coordinating corrective actions when performance deficiencies are identified
- Maintaining communication with the On-Site Supervisor(s)
- Ensuring timely submission of all required reports and deliverables
- Managing personnel transitions and replacements
- Resolving contractor employee issues and disputes

The PM must be available via telephone between 0800 and 1700 EST/EDT, Monday through Friday.

4.2 On-Site Supervisor

The On-Site Supervisor provides on-site supervision and day-to-day management of contractor personnel, including:

- Supervising contractor personnel at assigned SBA offices
- Certifying timecards and attendance records
- Ensuring security package completion and compliance
- Managing leave requests and approvals
- Resolving contractor employee disciplinary actions
- Maintaining training and personnel records
- Serving as liaison with the PM and COR for site-specific issues
- Ensuring contractor staff comply with safety, security, and conduct requirements

4.3 Contractor's Quality Assurance Plan (QAP)

The Contractor shall develop, maintain, and implement a comprehensive QAP that provides for inspection and quality control of all services and deliverables. The QAP must include:

- Defined processes and procedures for quality control
- Personnel identification by title and responsibility
- Internal review and validation procedures
- Communication protocols with SBA personnel
- Procedures for identifying and addressing conflicts of interest
- Information control and confidentiality policies
- Processes for responding to Government technical direction
- Description of checks and balances to ensure quality services
- Corrective action procedures

The Contractor shall submit:

- Draft QAP with proposal submission
- Final QAP within 7 days after post-award conference
- Updated QAP within 30 days of contract award incorporating any Government feedback

The QAP is a living document and shall be revised as conditions change or as requested through authorized Government contract administration channels.

5. Performance Objectives, Standards, and Acceptable Quality Levels

The following table establishes the performance objectives, performance standards, Acceptable Quality Levels (AQL), and surveillance methods for all contract activities. These metrics implement the performance requirements in Sections 5, 10, 11, and 12 of the PWS.

5.1 Performance Requirements Matrix

#	Performance Objective	PWS Section	Performance Standard	Acceptable Quality Level (AQL)	Surveillance Method
1	Provide qualified personnel in required labor categories	Sections 6, 7	Staff meet stated education/experience requirements; positions filled within agreed start dates; coverage maintained during core hours (0630-1800 EST/EDT)	95% of positions filled on time and maintained; no more than 1 unplanned vacancy exceeding 10 business days per labor category per contract year	COR review of qualifications, suitability clearance status, and bi-weekly staffing reports; monthly status reports; spot checks with OCRM leadership
2	Maintain Project Manager availability and responsiveness	Section 7.1	PM available 0800-1700 EST/EDT Monday-Friday; responds to CO/COR requests within 24 hours	100% responsiveness within 24 hours; PM maintains regular communication	COR tracking of response times; communication logs; quarterly PM performance review
3	Perform risk management, financial analysis, lender oversight, and administrative support tasks	Sections 3, 5	Work products are accurate, complete, and consistent with SBA Loan Program Requirements and OCRM protocols; analysis supports timely risk identification; reports contain actionable findings	95% of work products reviewed contain no material errors requiring rework; no more than 1 substantive quality issue per quarter	Random sampling of work papers, reports, and analytical products (minimum 10% sample); peer review by OCRM staff; periodic quality review meetings with COR and PM

4	Complete Desktop Reviews and delegated authority analyses	Sections 3, 5	Reviews utilize required systems (Lender Portal, Capital Access Financial System); work papers document analysis thoroughly; reports meet SBA format and content standards	90% of reviews accepted without substantive revision; 95% completed within scheduled timeframes	COR review of completed packages; OCRM technical review; timeline tracking against milestones
5	Submit bi-weekly employee reports	Section 11.1	Reports submitted electronically on 1st and 16th of each month; contain all required data elements (additions/deletions by name, position, employment/termination dates, office assignment, wage rate)	98% of reports submitted by due date; 100% contain all required elements without omissions	COR checklist review; email receipt confirmation; content verification against personnel records
6	Submit monthly status reports	Section 11.3	Reports submitted within 15 calendar days following month end; include all required content elements; provide clear account of work performed, problems encountered, and upcoming activities	95% of reports submitted on time; 98% meet content standards on first submission	COR checklist review; timeliness tracking; content assessment against Section 11.3 requirements
7	Submit monthly burn rate reports	Section 11.4	Reports submitted within 10 calendar days following month end; accurately reflect remaining funds, daily rates, and projections for all active Task Orders	98% of reports submitted on time; 100% accurate within 2% variance when reconciled to actuals	COR reconciliation to financial systems and timesheet data; variance analysis; tracking of funding status
8	Submit accurate and complete invoices	Sections 10, 11.2	Invoices submitted monthly to designated email; include all required elements (employee name, position, wage rate, hours, amounts, contract/Task Order/requisition numbers); reflect actual approved hours and correct rates	98% of invoices accepted without correction on first submission; 100% free of overbilling or rate errors	COR and CO administrative review; comparison to approved time sheets, labor rates, and burn rate reports; invoice checklist verification

9	Adhere to hours of operation and schedule requirements	Section 9.3	Contractor staff work only approved schedules between 0630-1800 EST/EDT; maintain fixed daily schedules as determined by OCRM Director; no work on holidays or closures	100% compliance with authorized schedules; zero instances of unauthorized schedule changes	COR review of weekly time sheets; OCRM Director verification; spot checks of attendance
10	Comply with federal holiday and closure policies	Section 9.4	No contractor personnel work on 11 federal holidays or during unscheduled closures; contractor not paid for time not worked	100% compliance; zero instances of holiday/closure work or improper billing	COR review of time sheets and invoices; cross-check against federal holiday calendar and closure announcements
11	Obtain advance written approval for overtime	Section 9.5	Overtime worked only with written pre-approval from CO or COR; overtime billed at 1.5x regular rate	100% of overtime has advance written authorization; billing rates correct	COR tracking of overtime requests and approvals; invoice verification of overtime charges
12	Submit and maintain security packages	Sections 14.2, 14.3	All personnel submit complete security packages (OF306, SBA Form 2044, Qualifications, citizenship docs) before site access; obtain favorable clearance or approved temporary clearance	100% of on-site staff have valid clearances before commencing work; security packages 100% complete upon submission	COR and Suitability Office verification; security package checklist review; clearance status tracking
13	Maintain PIV compliance	Section 14.1	All personnel comply with HSPD-12, OMB M-05-24, and FIPS PUB 201 requirements; maintain current PIV credentials	100% of personnel have valid PIV credentials; zero lapses in credential status	COR periodic verification; coordination with SBA security office; credential audit
14	Comply with badge and key control procedures	Section 17.2	All personnel wear visible badges on-site; no lost or duplicated keys/badges; immediate reporting of losses	Zero lost or duplicated badges/keys; 100% visible badge compliance; 100% of losses reported within 24 hours	COR and facility security spot checks; loss/incident reporting review; quarterly inventory

15	Adhere to standards of conduct and professional behavior	Sections 8.4, 15	Personnel maintain professional appearance; comply with conduct standards; no neglect of duty, disorderly conduct, criminal acts, substance issues, or security violations	Zero founded conduct violations requiring removal; zero security breaches; 100% professional appearance maintained	COR and OCRM Director observation; OCRM staff feedback; incident reporting review; site visits
16	Report accidents within required timeframes	Section 16.2	All accidents reported to OCRM Director, CO, and COR within 24 hours; accident documentation forms completed promptly	100% of accidents reported within 24 hours; 100% of required forms completed within 5 business days	COR tracking of accident reports; verification of notification timeline; documentation review
17	Safeguard Government property and equipment	Section 17.1	Contractor personnel secure facilities and equipment at end of each work period; use Government property only for authorized purposes; no use of personal computers without approval	Zero incidents of property damage, loss, or misuse due to contractor negligence	COR periodic inspections; property accountability reviews; incident tracking
18	Maintain confidentiality and information security	Sections 12.2, 15.6	All personnel sign confidentiality agreements; no unauthorized disclosures; comply with information control policies	Zero confirmed breaches of confidentiality; 100% of personnel have signed agreements on file	COR verification of signed agreements; incident monitoring; annual confidentiality training compliance check
19	Provide required performance metrics	Sections 10, 11.5	Metrics delivered in format specified by OCRM; data accurate and timely; changes to metrics implemented within 30 days of notification	95% of metric submissions on time and accurate; 100% of requested changes implemented by effective date	COR review of submissions; comparison to source systems; tracking of change implementation
20	Maintain and update Quality Assurance Plan	Section 12.2	QAP delivered per schedule; kept current with contract changes; demonstrates effective quality control processes	Initial QAP delivered within 7 days post-award; Final QAP within 30 days; updates submitted within 15 days of significant changes	COR review and approval of QAP submissions; assessment of QAP effectiveness through performance outcomes

6. Surveillance Methods

The Government will employ multiple surveillance methods to evaluate Contractor performance against the established standards. The specific method(s) used for each requirement are identified in Section 5.1 above. The following describes each surveillance approach:

6.1 100 Percent Inspection

For critical requirements where complete accuracy and compliance are essential, the COR will conduct 100 percent inspection of all items or occurrences. This method applies to:

- Security documentation and suitability clearance status
- Invoice accuracy and billing compliance
- Federal holiday and closure compliance
- Overtime authorization compliance
- Confidentiality agreement execution
- Accident reporting timeliness

6.2 Random Sampling

For recurring deliverables and work products where complete review is impractical, the COR will conduct random sampling inspections. Sample sizes will be determined based on:

- Volume of deliverables produced
- Historical performance trends
- Risk level associated with the work product
- Available Government resources for review

Minimum sample sizes:

- **High-volume outputs** (e.g., lender analyses, work papers): 10 percent sample, minimum 5 items per month
- **Medium-volume outputs** (e.g., quarterly reports, special analyses): 25 percent sample, minimum 2 items per quarter
- **Low-volume outputs**: 50 percent sample or case-by-case review

If defects exceed the AQL in any sample, the COR may expand sampling or conduct 100 percent inspection until performance improves.

6.3 Periodic Surveillance Using Checklists

For regularly scheduled deliverables and routine compliance items, the COR will use standardized checklists to verify completeness and conformance. Checklists will be maintained for:

Twice-monthly employee reports (verified on 1st and 16th of each month)

- Monthly status reports (verified within 5 days of due date)
- Monthly burn rate reports (verified within 5 days of due date)
- Security package submissions (verified before personnel start date)

- Time sheet approvals (verified weekly)

Checklists will be retained in the official contract file and summarized in quarterly performance assessments.

6.4 Customer and Stakeholder Feedback

The COR will systematically collect and document feedback from:

- OCRM Director and senior leadership (quarterly formal feedback sessions)
- OCRM staff working directly with contractor personnel (ongoing informal feedback, formal feedback semi-annually)
- District Offices and other internal partners (as issues arise or annually)

Feedback will address:

- Quality and accuracy of work products
- Timeliness and responsiveness
- Professionalism and communication
- Technical competence
- Problem-solving ability
- Overall satisfaction with services

The COR will document feedback in writing and discuss significant issues with the Contractor's PM during monthly coordination meetings.

6.5 On-Site Observation

The COR and OCRM leadership will conduct periodic on-site observations to assess:

- Adherence to hours of operation and work schedules
- Professional appearance and conduct
- Badge visibility and security compliance
- Use of Government property and equipment
- Supervision adequacy
- Work environment and safety compliance

On-site observations will be conducted at least monthly and documented in COR surveillance notes. Formal observations may be scheduled or unannounced.

6.6 Data Analysis and Trend Review

The COR will analyze performance data over time to identify trends, recurring issues, or systemic problems. Analysis will include:

- Tracking defect rates by performance objective
- Monitoring timeliness trends for deliverables
- Analyzing root causes of performance deficiencies

- Comparing performance across labor categories or individuals
- Assessing effectiveness of corrective actions

Trend analysis will be documented in quarterly performance assessments and discussed with the PM.

7. Performance File and Documentation

7.1 COR Performance File

The COR will maintain an official performance file containing:

- Copies of all deliverables and surveillance reports
- Checklists and inspection records
- Stakeholder feedback documentation
- Correspondence related to performance issues
- Corrective action plans and tracking
- Meeting minutes from coordination meetings
- Quarterly and annual performance assessments
- CPARS documentation

The performance file will be organized chronologically and by performance objective for ease of reference.

7.2 Quarterly Performance Assessment

The COR will prepare a written quarterly performance assessment summarizing:

- Overall performance against each performance objective
- Compliance with AQLs
- Trends and patterns observed
- Significant accomplishments or improvements
- Performance deficiencies and corrective actions taken
- Recommendations for continued performance improvement

The quarterly assessment will be provided to the CO and discussed with the Contractor's PM. It will serve as the basis for CPARS ratings.

7.3 Annual Performance Review

At least annually, the COR will conduct a comprehensive performance review meeting with the Contractor's PM to:

- Review overall performance across all objectives
- Discuss lessons learned and best practices
- Identify opportunities for process improvements
- Update performance objectives or AQLs if needed
- Plan for upcoming contract year activities

Minutes of the annual review will be documented and retained in the performance file.

8. Incentives and Disincentives

8.1 Positive Incentives

The Government recognizes and encourages superior performance. Contractors demonstrating consistent high-quality performance may benefit from:

CPARS Recognition:

- "Exceptional" or "Very Good" CPARS ratings for sustained performance exceeding AQLs
- Positive narrative comments in CPARS highlighting specific accomplishments
- CPARS ratings that enhance the contractor's competitive position for future opportunities

Increased Responsibility:

- Consideration for additional or expanded Task Orders
- Opportunities to participate in pilot programs or special initiatives
- Greater flexibility in proposing innovative solutions or process improvements

Reduced Surveillance:

- For contractors with sustained excellent performance (6+ months exceeding all AQLs), the COR may reduce sampling rates or inspection frequency
- Expedited approval processes for routine deliverables

8.2 Disincentives and Corrective Actions

Performance below established AQLs will result in progressively stronger Government actions:

First Instance (Minor Deficiency):

- Verbal notification from COR to PM
- Written documentation of deficiency in COR notes
- Discussion of cause and immediate correction

Second Instance or Recurring Issue:

- Written notice from COR to PM documenting deficiency
- Requirement for written corrective action plan within 5 business days
- Increased surveillance (expanded sampling, more frequent inspections)
- Discussion at monthly coordination meeting

Third Instance or Significant Deficiency:

- Formal written notice from CO to Contractor
- Mandatory corrective action plan with specific milestones and completion dates
- Weekly progress reporting on corrective actions

- Potential withholding of payment for defective deliverables (as authorized by contract terms)
- Negative impact on CPARS rating
- CO consideration of cure notice

Persistent Non-Compliance or Critical Failure:

- Issuance of cure notice (FAR 52.212-4(m) or FAR 52.249-8)
- Issuance of show cause notice
- Suspension of Task Order issuance
- Termination for default or convenience
- Debarment or suspension referral for serious violations

Critical Failures Warranting Immediate Action:

The following performance failures may result in immediate escalation to the CO for potential termination action:

- Security breaches or unauthorized disclosure of confidential information
- Fraud or intentional misrepresentation in billing or reporting
- Material errors in lender analyses that result in incorrect SBA decisions
- Contractor personnel engaging in criminal activity or serious misconduct
- Repeated failure to maintain required clearances or security compliance
- Persistent failure to staff required positions despite multiple cure opportunities

9. Corrective Action Process

9.1 Identification of Deficiency

When the COR identifies performance below the AQL through any surveillance method, the COR will:

1. Document the specific deficiency, including date, nature of problem, and evidence
2. Determine the severity level (minor, moderate, significant, or critical)
3. Verify that the deficiency represents a true contract non-compliance
4. Notify the Contractor's PM verbally (for minor issues) or in writing (for moderate or greater issues)

9.2 Contractor Response

Upon notification of a deficiency, the Contractor's PM must:

For Minor Deficiencies:

- Acknowledge the issue within 24 hours
- Implement immediate correction
- Provide verbal confirmation of correction to COR

For Moderate or Greater Deficiencies:

- Acknowledge receipt of written notice within 24 hours
- Submit written corrective action plan within 5 business days (or as specified by COR)
- Implement corrective actions per approved plan
- Provide progress reports as required by COR

9.3 Corrective Action Plan Contents

Written corrective action plans must include:

- Clear description of the deficiency and root cause analysis
- Specific corrective actions to be taken
- Responsible individual(s) by name and title
- Timeline and milestones for implementation
- Measures to prevent recurrence
- Method for verifying effectiveness of corrective action
- Resources required to implement corrections

The COR will review the corrective action plan and either approve it or require modifications within 3 business days.

9.4 Monitoring Corrective Actions

The COR will:

- Track implementation of corrective actions against plan milestones
- Conduct follow-up surveillance to verify effectiveness
- Require progress reports (weekly for significant issues, monthly for moderate issues)
- Document completion of corrective actions in performance file
- Verify that performance returns to acceptable levels

If corrective actions are not effective or not implemented timely, the COR will escalate to the CO for stronger remedies.

9.5 Closeout of Corrective Actions

Corrective actions will be considered complete when:

- All planned actions have been implemented
- Follow-up surveillance confirms performance meets or exceeds AQL
- Performance remains stable for at least 30 days after implementation
- COR documents completion in writing

10. Performance Monitoring Schedule

10.1 Routine Surveillance Activities

Frequency	Activity	Responsible Party
Daily	Review of contractor attendance and schedule compliance	OCRM Director/Designee
Weekly	Time sheet review and approval	On-Site Supervisor, COR
Bi-weekly	Employee report review (1st and 16th)	COR
Monthly	Status report review	COR
Monthly	Burn rate report review	COR
Monthly	Invoice review	COR, CO
Monthly	Random sampling of work products	COR, OCRM technical staff
Monthly	On-site observation	COR
Monthly	PM coordination meeting	COR, PM
Quarterly	Performance metrics review	COR, OCRM Director
Quarterly	Stakeholder feedback collection	COR
Quarterly	Performance assessment	COR
Quarterly	Security compliance audit	COR, Security Office
Semi-annually	Formal OCRM staff feedback session	COR
Annually	Comprehensive performance review	CO, COR, PM
Annually	CPARS evaluation	CO, COR
Annually	QAP effectiveness review	COR

10.2 Event-Driven Surveillance

In addition to routine surveillance, the COR will conduct targeted surveillance in response to:

- Receipt of complaints or concerns from stakeholders
- Identification of potential performance trends or patterns
- Changes in contract requirements or priorities
- Transitions of key contractor personnel
- Implementation of corrective action plans
- Significant changes in workload or Task Order scope

11. Performance Reporting

11.1 Monthly Coordination Meetings

The COR and Contractor PM will meet monthly (in person or via teleconference) to discuss:

- Overall performance status
- Review of deliverables submitted during the month
- Any performance issues or concerns
- Upcoming activities and priorities
- Staffing changes or challenges
- Process improvements
- Administrative matters

Meeting minutes will be documented and retained in the performance file.

11.2 Quarterly Performance Briefings

Each quarter, the COR will brief the CO and OCRM Director on:

- Performance against all objectives and AQLs
- Trends and patterns
- Significant accomplishments
- Performance deficiencies and corrective actions
- Recommendations for contract modifications or adjustments
- Preparation for upcoming option year decision or CPARS evaluation

11.3 CPARS Evaluation

The COR will prepare CPARS evaluations in accordance with FAR Subpart 42.15. CPARS ratings will be based on:

- Performance against the objectives and AQLs in this QASP
- Documentation in the performance file
- Quarterly performance assessments
- Stakeholder feedback
- Overall trend in performance over the rating period

The Contractor will have the opportunity to review and comment on CPARS evaluations before finalization.

12. QASP Administration and Updates

12.1 QASP Review

This QASP is a Government document and may be revised by the Government in accordance with the contract and applicable procedures. However, the COR will:

- Review the QASP annually to ensure continued relevance and effectiveness
- Solicit input from OCRM stakeholders on potential improvements
- Consider contractor feedback on surveillance methods and AQLs

- Recommend updates to the CO when appropriate

12.2 Modifications to Performance Standards

If OCRM mission priorities change, new requirements emerge, or performance expectations need adjustment, the COR will recommend modifications to:

- Performance objectives
- Performance standards
- Acceptable Quality Levels
- Surveillance methods

Such changes will be coordinated with the CO and, if they materially alter the scope or requirements of the contract, may require a bilateral contract modification.

12.3 Notification of Changes

When the QASP is updated, the COR will:

- Provide the Contractor written notice of changes at least 15 days before effective date (unless immediate action is required for safety, security, or mission-critical reasons)
- Explain the reason for the change and any impact on contractor operations
- Discuss implementation during monthly coordination meeting
- Update the QASP document and redistribute to all stakeholders

12.4 Version Control

Each version of the QASP will include:

- Version number and effective date
- Summary of changes from previous version

Approval signature of the CO, if required

The current version will be maintained on the contract file and provided to the Contractor's PM.

13. Roles and Responsibilities Summary

Role	QASP Responsibilities
Contracting Officer (CO)	• Ultimate authority for contract administration\newline • Approves QASP and modifications\newline • Reviews quarterly performance briefings\newline • Issues formal notices for performance deficiencies\newline • Makes decisions on corrective actions, payment withholding, termination\newline • Prepares final CPARS ratings

Contracting Officer's Representative (COR)	• Conducts day-to-day surveillance per QASP methods\newline • Reviews and accepts/rejects deliverables\newline • Maintains performance file documentation\newline • Coordinates with OCRM Director on technical matters\newline • Conducts monthly PM meetings\newline • Prepares quarterly performance assessments\newline • Collects stakeholder feedback\newline • Monitors corrective action implementation\newline • Prepares draft CPARS evaluations\newline • Recommends QASP updates
OCRM Director/Designee	• Provides daily operational oversight\newline • Verifies time sheets and attendance\newline • Provides feedback on work quality and contractor performance\newline • Participates in quarterly performance discussions\newline • Defines technical requirements and priorities
Contractor Project Manager	• Single point of contact for COR\newline • Implements contractor QAP\newline • Ensures compliance with all performance standards\newline • Responds to performance deficiencies\newline • Prepares and implements corrective action plans\newline • Maintains communication with On-Site Supervisor\newline • Participates in monthly coordination meetings and performance reviews
Contractor On-Site Supervisor	• Supervises daily contractor operations\newline • Ensures staff compliance with requirements\newline • Reviews and certifies timecards\newline • Coordinates with PM on performance issues\newline • Implements PM direction and contractor QAP procedures
